ACRIS - Since January 2, 2003 the City Register has accepted for recording only documents submitted using its new Internet based Automated City Register Information System, commonly referred to by its acronym of ACRIS. This requires the on-line preparation of and a Cover Page and Payment Sheet for documents being submitted for recording in New York, Bronx, Kings, and Queens counties.

The Department of Finance has advised that certain forms submitted to the Register’s Office in connection with a transfer of an interest in real property will, as of a date to be determined in March 2004, have to be prepared on-line in ACRIS’s new E-Tax Forms module. The forms are the City of New York’s Real Property Transfer Tax Return (“RPT”), New York State’s Real Estate Transfer Tax Return (“RETT”), New York State’s Real Property Transfer Report (“RP-5217NYC”), the Affidavit of Compliance with the Smoke Detector Requirement, the Customer Registration Form for Water and Sewer Billing, and the Property Owner’s Registration Form. When the required fields are completed, each of these forms, except for the Property Owner’s Registration Form, are to be printed, signed and submitted to the recording office with the related document. The Property Owner’s Registration Form will not need to be printed; once completed ACRIS will electronically file this form.

Once all the required fields are completed, the User can print a final version of the forms for submission to the recording office. A Tax Transaction Identification Number will be imprinted on each form. Among the forms’ required fields is the Social Security or Tax Identification Numbers of the parties to the transfer on the RPT and RETT. The Department of Finance has advised that entering “pending” or “applied for” in lieu of this information will not be accepted under E-Tax Forms.

ACRIS will generate signature lines for each transferor and transferee. While the intention is not to change current practices, it remains to be resolved whether the Register’s offices will require the signature of each party or only one signature, as has been the minimum requirement. It is also not yet determined whether a Social Security Number or Tax Identification Number will be required on a Referee’s deed.

The person using ACRIS will be able to print drafts of the forms before they are final. Drafts will be watermarked with the word “DRAFT” if all required fields are
not completed. The Social Security or Tax Identification Numbers of the parties to
the transfer will not be on a form printed in DRAFT.

By entering the ACRIS generated User ID and Password for a transaction the User,
or any other person having the same User ID and Password, will be able to
complete or modify the forms. In addition, fields on the Cover Page will be
populated with information from the forms module when the Tax Transaction
Identification Number is entered in the Cover Page segment of ACRIS.

For each form, ACRIS will generate a separate, supplemental additional signature
page that can be printed when the Forms are in DRAFT. This additional signature
page can be annexed to the forms when they are Final for submission. The bottom of
the usual signature page must only have noted “see Signature Page annexed” This
will enable signatures to be obtained prior to closing and the signature pages later
included with each completed, printed form.
