BENEFIT FROM OUR SCHEDULED CLASSES, ON-DEMAND, OR CUSTOM TRAINING OPTIONS

Online Self-Paced Training

Would you like to learn right now? We offer free recorded product training to be viewed at your convenience. Online self-paced courses require sound so a listening device, such as a headset, is recommended.

Public Schedule

First American Training offers basic FraudGuard and RegsData classes live via GoToWebinar® at various times throughout the month.

Instructor-led training classes require a minimum of 10 students to be registered one hour prior to start time. If minimum class registrations are not met, the class may be canceled, and students will receive an online self-paced version of the course along with a companion reference guide.

Custom/Private Solutions

Our Training Specialists will work closely with you to modify our learning solutions to fit your specific needs!

4506- Tax Transcripts – Online Self-Paced Training Quick Reference Guides Included

- **TX100 - Using 4506:** The TX100 class describes how to order 4506-C services from the Verification Gateway. (Class Duration - 45 Minutes)
- **TX101- Using 4506 in FraudGuard:** The TX101 class describes how to order 4506-C Services within FraudGuard and use the powerful analytics that are generated with the integration of both tools (FraudGuard and 4506-C). (Class Duration - 45 min)

FraudGuard® – Online Self- Paced Training Quick Reference Guides Included

- **FG100 - Using FraudGuard:** This is the beginning level class in the FraudGuard series and covers the basics of understanding and using the tool. Attendees will learn about the key features within the FraudGuard tool, including how to manage variances (alerts), print, search for records, and other core tasks. (Class Duration - 75 min)
- **FG200 - Interpreting Variances in FraudGuard:** This intermediate (second level) class in the FraudGuard series takes a more in-depth look at variances (alerts) types. This course covers several variance categories, why they fire, and how to begin the process of resolving the variances using the Suggested Actions data found with the FraudGuard report. (Class Duration - 60 min)
- **FG300 - Borrower Fraud Analysis:** This advanced level class is one of the final classes in the FraudGuard series and is independent of the FG301 - Property Fraud Analysis course. This course covers the most common borrower-related fraud schemes/misrepresentations, their characteristics, associated FraudGuard variances, and how to investigate the issues. (Class Duration - 60 min)
- **FG301 - Property Fraud Analysis:** This advanced level class is one of the final classes in the FraudGuard series and is independent of FG300 - Borrower Fraud Analysis course. This course covers the most common property-related fraud schemes/misrepresentations, their characteristics, associated FraudGuard variances, and how to investigate the issues. (Class Duration - 60 min)
- **FG900 - Using Undisclosed Debt Monitoring (UDM) in FraudGuard:** This class covers all aspects of the optional Undisclosed Debt Monitoring enhancement in FraudGuard. This feature supports compliance with Fannie Mae LQI requirements. (Class Duration - 45 min)
- **FG902 - Using the Work Number (TWN) in FraudGuard:** This class covers all aspects of the optional The Work Number (TWN) enhancement, including how to interpret and address any variances generated. (Class Duration - 45 min)

RegsData Compliance Suite – (Live Webinar) Registration Required

- **RD100** - This class provides RegsData Compliance Suite users direction on how to enter data in the RegsData™ input fields, navigating the report, as well as interpreting the pass/failed test results returned on the report worksheet. (Class Duration - 60 min)

SSN Direct – Online Self-Paced Version

- **SSN100 - Using SSN Direct:** In this class, students learn how to obtain, complete, and submit SSA Consent Verification forms. The course also covers how to order and view the results. (Class Duration - 45 min)

Learning Catalog

Additional Quick Reference Guides Available

Please email training@firstam.com and request a Quick Reference Guide.

It is required to email your request from your company email address.

Once an inquiry is approved, our training team will email a .pdf version of the support materials that have been requested within 1 business day.

Associated Business Search

- **FG904 - Associated Business Search in FraudGuard:** This reference guide provides a reference guide for using FraudGuard's Associated Business Search Feature. This enhancement checks to see if a borrower is associated with other businesses that are not listed as the current employer, if any of the self-employed borrower's corporations are inactive, and if the borrower's employer is an inactive corporation.

Bankruptcy Search

- **FG905 - Bankruptcy Search in FraudGuard:** This reference guide describes the bankruptcy search feature in FraudGuard. The ability to analyze borrower bankruptcy data ensures a more concise overall risk review, improves loan quality, and provides a more comprehensive FraudGuard report. First American offers FraudGuard customers the ability to retrieve bankruptcy records associated with borrowers.

NMLS in FraudGuard

- **FG903 - Using the NMLS in FraudGuard:** This reference guide covers NMLS features in FraudGuard. The Nationwide Mortgage Licensing System (NMLS) streamlines access to mortgage licensing information through a centralized data bank. Bringing NMLS data to FraudGuard makes access to NMLS information easier and faster.

FraudGuard Enhanced Solutions

- **FG911-** This resource is to inform a FraudGuard user of enhancements and Solutions that are currently available

Liens & Judgments Search

- **FG907 FraudGuard Liens & Judgments Search:** This reference guide will demonstrate the ability to analyze borrower liens and judgments data ensures a more concise overall risk review, improves loan quality, and provides a more comprehensive **FraudGuard®** report. First American offers **FraudGuard** customers the ability to retrieve liens and judgment records associated with the borrower(s).

Using Clear Value in FraudGuard

- **CV100-** This reference guide provides information about Clear Value in FraudGuard. It will demonstrate how CV enables lenders and investors to incorporate credit policies and risk factors, such as geography or LTV, for accurate, economic, and dynamic valuation results.
