Notwithstanding any provision in the Official Zoning Ordinance to the contrary, no Lot may be used for any "Special Use" that is not clearly incidental and necessary to single family dwellings.

Section 2.2. Other Restrictions. All Property shall be subject to the easements, restrictions, and limitations of record and rights-of-way, and also to all Applicable Laws.

ARTICLE III

ADDITIONS TO AND WITHDRAWALS FROM THE PROPERTY

Section 3.1 Additions. As of the date of the execution of this Declaration, the Property consists solely of the Real Estate. Declarant shall have the right, and hereby reserves on to itself the unilateral right, at any time, and from time to time, at any time prior to the end of the
Development Period, to add to the Property and subject to this Declaration all or any part of the Additional Real Estate; provided, however, that the addition of any parts of the Additional Real Estate not owned by the Declarant at the time the same are subjected to this Amenity Declaration shall require the written consent of such Owner. Any portion of the Additional Real Estate shall be added to the Property, and therefore and thereby becomes a part of the Property and subject in all respects to this Declaration and all rights, obligations, and privileges herein, when Declarant places of record in Hendricks County, Indiana, a written instrument or written statement so declaring the same to be part of the Property, which written instrument or written statement may be contained in a Plat, or an amendment or supplement to this Declaration. Any such written instrument or written instrument may contain modifications hereto and additional terms, conditions, restrictions, maintenance obligations, and assessments as may be necessary to reflect the different character, if any, of the Additional Real Estate.

Upon recording of any such instrument on or before the end of the Development Period, the real estate described therein shall, for all purposes, thereafter be deemed a part of the Property and the Owners of any Lots within such real estate shall be deemed for all purposes, to have and be subject to all of the rights, duties, privileges, and obligations of Owners of Lots within the Property. No single exercise of Declarant’s right and option to add and expand the Property as to any part or parts of the Additional Real Estate shall preclude Declarant from thereafter from time to time further expanding and adding to the Property to include other portions of the Additional Real Estate, and such right and option of expansion may be exercised by Declarant from time to time as to all or any portions of the Additional Real Estate so long as such expansion is accomplished on or before the end of the Development Period. Such expansion of the Property shall not require the consent of any Person other than the Owner(s) of the property to be added, if not the Declarant and is entirely at the sole discretion of the Declarant, and nothing contained in this Declaration or otherwise shall require Declarant to expand the Property beyond the Real Estate, or to any portions of the Additional Real Estate, which Declarant may voluntarily in its sole discretion from time to time subject to this Declaration.

Section 3.2 Withdrawals. So long as it has a right to annex or subject to this Declaration the Additional Real Estate pursuant to Section 3.1, Declarant reserves the unilateral right in its sole discretion to amend this Declaration for the purpose of removing any portion of the Property, which has not yet been improved with Residences, from the coverage of this Declaration. Such amendment shall not require the consent of any Person other than the Owner(s) of the property to be withdrawn, if not the Declarant.

ARTICLE IV

EASEMENTS

Section 4.1 Designated Easements. The following are easements designated or to be designated, in the Declarant's sole discretion, upon a Plat:

(A) Designated Drainage, Utility, and Sewer Easements. There are strips of ground designated on the Plat as drainage easements, utility easements, sewer easements,
sanitary sewer easements or storm sewer easements, or any combination thereof, which are hereby reserved to the appropriate governmental entities, public utilities, and private utilities for the installation and maintenance of swales, ditches, pipes, drains, electric lines, gas lines, telephone lines, fiber optic cable, high speed internet lines, sanitary sewers, manholes, detention and retention areas or other drainage facilities. Purchasers of Lots shall take title subject to such easements hereby created and subject at all times to the rights of proper authorities to service and maintain such drainage facilities and easements, and no permanent structure of any kind and no part thereof, except fences which do not retard or impede the flow of drainage water and which are approved by any entity to which the easement is dedicated, shall be built, erected or maintained on said drainage easements, except by the Declarant or its assigns. It shall be the responsibility of the Association and the Owners of the areas enclosed within such drainage easements to maintain such areas in such conditions that the flow of storm drainage waters on, across and from said areas shall not be impeded, diverted or accelerated. Such use for storm water movement or retention or detention is hereby declared to be an easement and servitude upon said land for the benefit of the Owners of other land included within the Plat, upstream or downstream, affected by such use and for any proper governmental agency or department or any private or public utility. All proper governmental agencies or departments and public and private utilities are hereby given the right to obtain access to such areas to perform maintenance and to perform such maintenance as may be necessary to protect that easement and servitude rights. It shall be the responsibility of the Association and the Owner of any Lot or parcel of land within the Plat to comply at all times with the provisions of the drainage plan as approved for the Plat by the appropriate governmental agency or department and the requirements of all drainage permits for such Plat issued by those agencies. Failure to so comply shall operate as a waiver and release of the Declarant, the developer, or their engineers and agents from all liability as to damage caused by storm waters or storm drainage. Further, there are hereby created easements and servitudes upon the land within the Plat in favor of surface water runoff along natural valleys and drainage channels running to Owners of other land contained within the Plat, upstream and downstream. It shall be the responsibility of the Association and the Owners of these natural valleys and channels to use their land and maintain said natural valleys and channels in such manner and condition that the flow of storm drainage waters on, across, from and to such areas shall not be impeded, diverted or accelerated.

(B) Designated Mounding, Landscaping, and Screening and Sign Easements. Any strips of grounds shown or designated on the Plat for landscaping including, but not limited to, landscape easements, landscape maintenance easements, or landscape maintenance access easements are hereby reserved unto Declarant, during the Development Period, and, thereafter, unto the Association, for the purposes of (i) providing signs which either advertise the Property and the availability of Lots or identify the Property and (ii) installing landscaping, mounding, fencing, masonry walls, and screening. Declarant reserves unto itself during the Development Period and thereafter unto the Association, the exclusive and sole right to erect signs and install landscaping, mounding, and screening within these strips of ground. Notwithstanding anything in this Declaration to the contrary, no planting shall be done, and no hedges, walls, fences or other improvements shall be erected or maintained in the area of such easements, except by the Declarant during the Development Period, and
thereafter by the Association. Furthermore, notwithstanding anything in this Declaration to the contrary, no planting shall be done, and no hedges, walls, fences, structures, or other improvements shall be erected between (i) any landscape easement or landscape maintenance easement and (ii) any perimeter roadway, public highway or right-of-way along the perimeter or boundary of the Property, except by the Declarant during the Development Period and thereafter by the Association.

(C) Easement Work. Notwithstanding any architectural approval under Article VII below, during the course of any maintenance, service, repair or work upon any easement, the Declarant, the Association, any private utility, any public utility, and any governmental entity shall have the right and the authority, without any obligation, liability or obligation of replacement, whatsoever to any Owner, to remove, damage, or destroy any fence or other structure or landscaping built, erected, maintained or planted in any easement described in Section 4.1 (A) above.

Section 4.2 General Drainage, Utility, Sewer and other Development Easements. The following rights reserved in this Section 4.2 shall not be exercised, after the conveyance of any Lot, in a manner that (i) unreasonably and adversely affects any Residence or portion thereof located upon such Lot or the Owner's use or enjoyment thereof, or (ii) unreasonably restricts the rights of ingress and egress to such Lot. The following rights and easements reserved by Declarant in this Section 4.2 shall run with the land, and Declarant's right to further alter or grant easements shall automatically terminate and pass to the Association upon the expiration of any Development Period.

(A) General Easement. Declarant hereby reserves unto itself during the Development Period, and thereafter unto any public or private utility, a general easement ("General Drainage, Utility and Sewer Easement") for drainage, utility and sewer purposes in, on and over all of the Common Area and any Lot, so as to permit the installation and allow to be maintained all electrical, telephone, water, gas, sanitary and storm sewer, television (including but not limited to cable and/or satellite) transmission facilities, security systems and other utility services (including all necessary lines, pipes, wires, cables, ducts, antennae and other equipment and facilities) to serve any Residence. Any General Drainage, Utility and Sewer Easement include all areas of the Property outside any Residence. By virtue hereof, Declarant reserves the right to install a Pond(s) on any Common Area. The rights hereunder and easements hereby reserved survive the conveyance, by the Declarant to the Association, of any Common Area. This easement shall be in addition to any easement identified upon a Plat as a drainage, sewer, utility, cable, landscape, sign, transmission, flowage or similar type easement.

(B) Pond Easement. Declarant reserves unto itself during the Development Period, and thereafter unto the Association, an easement ("Pond Easement") and right-of-way in and to any Pond Area (s) or areas now or hereafter shown on the Plat as a "Block", "Common Area", or "Pond" or any other Common Area within the Property used as a water retention or detention area, or on which a Pond now exists or is later constructed, for the purpose of fulfilling any maintenance obligations set forth in this Declaration and establishing and maintaining proper surface water drainage throughout the Property,
including dewatering or aquatic maintenance, and an easement of ingress and egress through so much of the remainder of the Property as is reasonably necessary or appropriate, to perform such actions as Declarant or the Association deem necessary or appropriate, for the purpose of establishing and maintaining proper surface water drainage throughout the Property, which such actions shall include the construction, repair and maintenance of retention and detention ponds or Ponds in accordance with all Applicable Laws.

(C) **Sign and Facility Easement.** Declarant reserves unto itself during the Development Period, and thereafter unto the Association, a general sign and facilities easement ("Sign and Facilities Easement") giving it the right to install, erect, construct and maintain an entryway sign or signs, directional signs, advertising signs advertising and/or identifying the Property or the Lots therein, lighting, walkways, pathways, fences, walls and any other landscaping, architectural and recreational features or facilities considered necessary, appropriate, useful or convenient, anywhere upon the Property (except upon any Lot after the first conveyance thereof). Any such signs and other improvements shall comply with any Applicable Laws and all such signs and other improvements shall be maintained by the Association as a part of its Common Area maintenance obligations.

(D) **Additional Authority.** Declarant reserves unto itself during the Development Period, and thereafter unto the Association, the full right, title and authority to:

(i) Relocate, alter or otherwise change the location of any Drainage, Utility and Sewer Easement, Pond Easement, and/or Sign and Facilities Easement, or any facility or infrastructure at any time located therein or thereon;

(ii) Grant such further easements, licenses and rights-of-way, temporary or permanent, exclusive or non-exclusive, surface or otherwise, as Declarant may deem necessary or appropriate, for ingress and egress, utility and similar purposes on or within any portion of the Property, for the benefit of the Property or any portion thereof; and,

(iii) Describe more specifically or change the description of any Drainage, Utility and Sewer Easement, Pond Easement, Sign and Facilities Easement and any other easement, license or right-of-way now or hereafter existing on the Property, by written instrument, amended Plat or amendment to the Plat recorded in the Office of the Recorder of Hendricks County, Indiana.

(E) The title of (i) the Declarant or the Association to the Common Area owned during the Development Period and (ii) any Owner of any Lot, shall be subject to the rights and easements reserved herein.
ARTICLE V

ADDITIONAL PROVISIONS RESPECTING
SANITARY SEWER UTILITY

Section 5.1 Easements. Sanitary sewer utility easements allow for the construction, extension, operation, inspection, maintenance, reconstruction, and removal of sanitary sewer facilities and also give utility companies, whether public or private, as well as any governmental authorities, the right of ingress/egress.

Section 5.2 Trees. No trees shall be planted directly over building sewers or laterals. Any landscaping placed within easements or right-of-ways may be removed, damaged, or destroyed by the applicable utilities without any obligation of repair or replacement.

Section 5.3 Other Obstructions. No mounding, lighting, fencing, signs, retaining walls, landscaping walls, entrance walls, irrigation lines, or other improvements shall be placed within ten (10) feet of the center of the sanitary sewer infrastructure. Any of these which are placed within easements or right-of-ways may be removed by the applicable utilities without any obligation of repair or replacement.

Section 5.4 Owner’s Responsibility. All Owners not serviced by gravity sanitary sewer service are responsible for all maintenance, repair and replacement of all grinder/ejector pumps, force mains and gravity laterals from the Residence to its connection to the sanitary sewer main.

Section 5.5 Discharge. The discharge of clear water sources, including, but not limited to, foundation drains, sump pumps, and roof drains into the sanitary sewers is prohibited.

Section 5.6 Grade Changes. Grade changes across sanitary sewer facilities must be approved in writing by the applicable utilities, and must comply with Applicable Laws.

ARTICLE VI

COVENANTS AND RESTRICTIONS

Section 6.1 Land Use. Lots may be used only for single-family residential purposes and only one Residence, not to exceed the maximum height permitted by and measured pursuant to the Applicable Laws, may be constructed thereon. No portion of any Lot may be sold or subdivided such that there will be thereby a greater number of Residences, located in any particular platted area, than the number of Lots depicted on the Plat of such area. Notwithstanding any provision in the Official Zoning Ordinance to the contrary, no Lot may be used for any "Special Use" that is not clearly incidental and necessary to single family dwellings.
Section 6.2 Address Identification. The numbers representing the address of each Residence will be of a uniform appearance and will be displayed in a uniform location and manner, as determined by the Architectural Control Committee.

Section 6.3 Lighting. All homes will have exterior lights as approved by the Architectural Control Committee. In the Declarant's sole discretion, street lights may be installed by Declarant in the utility easements on Lots, in the Common Areas, and in public rights-of-way. During the Development Period, and in the Declarant's sole discretion, street lights may be operated and maintained by the Association. After the Development Period, the Association shall have the right to remove street lights deemed no longer necessary by the Board of Directors.

Section 6.4 Temporary Structures. No trailer, shack, tent, boat, basement, garage or other outbuilding may be used at any time as a dwelling or Residence, temporary or permanent, nor may any structure of a temporary character be used as a dwelling or Residence. No temporary structure, trailer, or other outbuilding shall be placed or erected on any Lot, except by Declarant or a Builder. Any such temporary structure, trailer, garage, or other outbuilding shall be removed immediately upon completion of the primary Residence.

Section 6.5 Driveways. All driveways in the Property shall be concrete in material, unless otherwise approved by the Architectural Control Committee.

Section 6.6 Water Systems. Each Owner shall connect to the water main maintained by a private or public water utility to provide water for domestic use on the Lot and shall pay all connection, or other charges lawfully established with respect to connections thereto.

Section 6.7 Drainage. In the event storm water drainage from any Lot or Lots flows across another Lot, provision shall be made by the Owner of such downstream Lot to permit such drainage to continue, without restriction or reduction, across the downstream Lot and into the natural drainage channel or course, although no specific drainage easement for such flow of water is provided on the Plat. To the extent not maintained by the municipality or local governmental board having jurisdiction, "Drainage Easements" shall exist in drainage swales and shall be maintained by the Owner of the Lot upon which such easements are located such that water from any adjacent Lot shall have adequate drainage along such swale. The elevation of a Lot shall not be changed so as to materially affect the surface elevation or grade of surrounding Lots. Perimeter foundation drains and sump pump drains shall be connected whenever feasible into a subsurface drainage tile. Down spouts and drains shall be designed to disperse runoff for overland flow to street or swale collection systems. Each Owner shall maintain the subsurface drains and tiles located on his Lot and shall be liable for the cost of all repairs thereto or replacements thereof.

Section 6.8 Signs. Except for such signs as Declarant may in its sole discretion display in connection with the identification of development of the Property and the sale of Lots therein, no sign of any kind shall be displayed to the public view of any Lot except that one (1) sign of not more than four (4) square feet may be displayed by an Owner or a Builder at any time for the purpose of advertising a Lot or Residence thereon for sale.
Section 6.9 Fencing. This Section 6.9 is applicable to all Lots except those Lots which are used for a sales office or model home by the Declarant or a Builder. No fence, wall, hedge, or shrub planting higher than eighteen (18) inches shall be permitted between the front property line and the front building set back line except where such planting is part of Residence landscaping approved by the Architectural Control Committee and the prime root thereof is within six (6) feet of the Residence. Trees shall not be deemed "shrubs" unless planted in such a manner as to constitute a "hedge". Corner Lots shall be deemed to have two front property lines. All fencing shall be (i) unpainted, cedar, dog-eared shadow-box on both sides of the fence, (ii) wrought iron, or (iii) wrought iron in appearance but made with aluminum or other acceptable material, unless otherwise approved by the Committee. All fencing shall have a maximum height of 48 inches above grade, except (i) if the Lot contains an in-ground swimming pool, then the maximum height of the fencing shall be 72 inches above grade, and (ii) if the Lot abuts a Pond, then the maximum height of the fencing shall be 42 inches above grade starting at a point that is 24 feet behind the rear foundation line of the house. All plans for approval of fencing which are submitted to the Architectural Control Committee shall identify all corners of the subject Lot, and the Lot Owner shall be responsible for installing the fence in accordance with the approved plans. All fencing on a Lot shall be uniform in height, style, and color and substantially similar in material. Fencing shall not extend past the rear foundation line of the house towards the street, unless approved by the Committee. No fence or wall shall be erected or maintained on or within any Landscape Easement except such as may be installed by Declarant and subsequently replaced by the Association in such manner as to preserve the uniformity of such fence or wall. No fence may be erected on a Lot without prior approval of the Architectural Control Committee, which shall approve or disapprove the location of all fences. All fencing erected on a Lot must be erected either (i) within six (6) inches of the property line of such Lot, or (ii) more than four (4) feet from the property line of such Lot. Each Owner who has a fence erected that is located within six inches of the property line of its Lot, hereby approves of each applicable adjacent Lot Owner to encroach upon the Owner’s Lot up to a maximum of six (6) inches in order for (x) the applicable adjacent Lot Owner to connect its adjacent Lot Owner’s fence to the Owner’s fence already erected, (y) such applicable adjacent Lot Owner to subsequently maintain its adjacent Lot Owner’s fence within the encroached area of the Owner’s Lot, and (z) the applicable adjacent Lot Owner to subsequently mow and/or otherwise maintain the portion of the Owner’s Lot located between the Owner’s fence and the property line of the applicable adjacent Lot Owner. Under no circumstances shall such encroachment give rise to a claim of adverse possession or easement by prescription. In the event that a fence is already erected on an adjoining Lot within six (6) inches of the property line, then the Owner of a Lot desiring to install a new fence shall either (i) connect the Owner’s new fence to the fence on the adjoining Lot if the new fence satisfies all of the criteria expressed herein and is approved by the Committee, or (ii) install the Owner’s new fence more than four (4) feet from the property line so that the gap between the Owner’s new fence and the existing fence on the adjoining Lot will be at least four (4) feet wide. The Architectural Control Committee may establish further restrictions and design standards with respect to fences, including limitations on (or prohibition of) the installation of fences in the rear yard of a Lot abutting a Pond. All fences shall be kept in good repair. Each Owner shall properly maintain, mow, and trim grass on all portions of such Owner’s Lot, including the portions of the Lot located on the other side of a fence installed upon such Lot.
Section 6.10 Nuisances. No noxious or offensive activity shall be carried on upon any Lot nor shall anything be done thereon which may be, or may become, an annoyance or nuisance to the neighborhood hereby established. Violation of any ordinance governing noise, building or lot maintenance, or any other public nuisance shall be deemed to be a nuisance creating rights in every affected Owner, the Declarant, and/or the Association, as the case may be, to enforce the provisions hereof against the offending Owner. Barking dogs may constitute a nuisance. In the event of successful enforcement by an Owner, the Declarant, or the Association of the provisions herein, the offending Owner shall be liable to the prevailing party for attorneys' fees, court costs, and all other costs and expenses of litigation and collection in connection therewith.

Section 6.11 Garbage and Refuse Disposal. No Lot shall be used or maintained as a dumping ground for trash. Rubbish, garbage or other waste shall be kept in sanitary containers out of public view from the street (either within the garage or behind a Committee-approved fence or screen), except for a period of time not more than 24 hours prior to, and 12 hours after the removal thereof, when it may be placed at the curb of the Lot. All equipment for storage or disposal of such materials shall be kept clean and sanitary.

Section 6.12 Livestock and Poultry. No animals, livestock or poultry of any kind shall be raised, bred or kept on any Lot, except that dogs, cats or other household pets may be kept provided that they are not kept, bred, or maintained for any commercial purpose. The owners of such permitted pets shall confine them to their respective Lots such that they will not be a nuisance. Owners of dogs and cats shall so control or confine them so as to avoid barking and/or roaming which will annoy or disturb adjoining Owners. Unless permitted by the Board of Directors, no Owner shall maintain more than two (2) of the same type (dog, cat, bird) of pet nor more than four (4) total pets; provided, however, that fish which are located in indoor aquariums and which pose no risk to the public health shall not be considered pets for the purpose of this restriction. No dangerous or potentially dangerous pets, such as exotic animals (large wild cats, wolves, alligators, snakes which are poisonous or longer than two feet, poisonous spiders, and so on) shall be permitted to exist in a Residence or on a Lot without the unanimous consent of the Architectural Control Committee and the Board of Directors; provided, however, that the decision of the Board of Directors to permit such animal or animals may be overturned by a majority vote of the members of the Association at any meeting.

Section 6.13 Outside Burning. No trash, leaves, or other materials shall be burned upon a Lot unless the smoke therefrom will not blow upon any other Lot. Owners shall use appropriate incinerators and shall at all times be in compliance with all Applicable Laws for outside burning.

Section 6.14 Antennae Systems. To the extent not inconsistent with federal law, exterior television and other antennae, including satellite dishes, are prohibited, unless approved in writing by the Architectural Control Committee. The Architectural Control Committee may adopt rules for the installation of such antennae and/or satellite systems, which rules shall require that antennae and satellite dishes be placed as inconspicuously as possible from public view from the street. It is the intent of this provision that the Architectural Control Committee shall be able to strictly regulate exterior antennae and satellite dishes to the fullest extent of the law and should any regulations adopted herein or by the Architectural Control Committee conflict with federal law, such rules as do not conflict with federal law shall remain in full force and effect.
Section 6.15 Exterior Lights. Except on Lots on which there is maintained a sales office or model home by the Declarant or a Builder, no exterior lights shall be erected or maintained between the building line and rear lot line so as to shine or reflect directly upon another Lot.

Section 6.16 Electric Bug Killers. Electric bug killers, "zappers", and other similar devices shall not be installed at a location or locations which result in the operation thereof becoming a nuisance or annoyance to other Owners, and shall be operated only when outside activities require the use thereof and not continuously.

Section 6.17 Association's Right to Perform Certain Maintenance. In the event that the Owner of any Lot shall fail to maintain his or her Lot and any improvements situated thereon in accordance with the provisions of this Declaration, the Association shall have the right, but not the obligation, by and through its agents or employees or contractors, to enter upon said Lot and repair, mow, clean or perform such other acts as may be reasonably necessary to make such Lot and improvements situated thereon, if any, conform to the requirements of these restrictions. The corresponding costs incurred by the Association shall be assessed to the Owner and shall constitute a lien on such Owner's Lot. The Owner of such Lot shall reimburse the Association within thirty (30) days of the date on which the Owner is invoiced by the Association. The Association shall have the right to collect any amounts due and owing under this Section 6.17 in the same manner as assessments are collected per the terms of Article XI below, together with reasonable attorney's fees and costs of collection. Neither the Association nor any of its agents, employees, or contractors shall be liable for any damage that may result from any maintenance work performed hereunder.

Section 6.18 Awnings. Except on Lots on which there is maintained a sales office or model home by the Declarant or a Builder, or as approved by the Architectural Control Committee, no metal, wood, fabric, fiberglass or similar type material awnings or patio covers are permitted anywhere on the Property.

Section 6.19 Diligence in Construction. Subject to inclement weather, every Residence shall be completed within fifteen (15) months after the commencement of the construction thereof. For cause shown, this fifteen (15) month period may be extended by the Architectural Control Committee. No improvement which has partially or totally been destroyed by fire or otherwise shall be allowed to remain in such state for more than three (3) months after the time of such destruction or damage or, if approval of the applicable casualty insurance is pending, then within three (3) months after such approval is forthcoming.

Section 6.20 HVAC Units. No heat pumps, air conditioning units or gas meters shall be installed in the front of the Residence.

Section 6.21 Pond and Pond Area(s). Except as otherwise provided, no individual using a Pond, if any, has the right to cross another Lot or trespass upon shoreline not within a Common Area owned by the Association, subject to the rights of the Declarant, the Association, their employees, heirs, successors and assigns as set forth in the Declaration. No one shall do or permit any action or activity which could result in pollution of any Pond, diversion of water, elevation of any Pond level, earth disturbance resulting in silting or any other conduct which could result in an
adverse effect upon water quality, drainage or proper Pond management, except as provided in this Declaration. A Pond may not be used for swimming, ice skating, boating, or for any other purpose, except for (i) drainage of the Property and (ii) fishing from the shoreline of the Pond by Owners and their family members and guests, unless expressly and specifically approved by the Board of Directors in writing and allowed by law. Ponds and Pond Areas may or may not exist on the Property, and the reference throughout this Declaration to Ponds and Pond Areas is made in order to address Ponds and Pond Areas, if any, which now exist or are later constructed upon the Property. The installation on the Property of any Pond or Pond Area shall be within the sole discretion of the Declarant, and under no circumstances shall the Declarant be required or obligated to install any Pond or Pond Area. Only the Declarant and the Association shall have the right to store items or develop recreational facilities upon any Common Area including, without limitation, Common Areas on which a Pond exists.

Section 6.22 Mailboxes. All mailboxes and posts must be approved by the Architectural Control Committee and shall be standard as to size, location, post, design, height, material, composition and colors. The Builder shall install the initial mailbox for each Lot, meeting the above criteria, at the Lot Owner’s expense. The Owner shall, at the Owner’s expense, maintain, repair, replace and paint said mailbox and post in conformance with all other mailboxes.

Section 6.23 Maintenance of Lots and Improvements. Each Owner shall at all times maintain the Lot and any improvements situated thereon in such a manner as to prevent the Lot or improvements from becoming unsightly and, specifically, such Owner shall:

(B) Any Owner or Builder altering, changing, or damaging such drainage swales or ditches shall be responsible for such action and will be given ten (10) days notice, by registered mail, to repair said damage, after which time, if no action is taken, the appropriate jurisdictional agency, the Declarant or the Association may cause said repairs to be accomplished and the invoice for such repairs shall be sent to the responsible Owners for immediate payment. If immediate payment is not received by the Association, the amount owed, together with reasonable attorney's fees, shall be a lien on the subject Lot and the Association shall have all the rights and remedies to collect any outstanding amounts as outlined hereafter in Article XI of this Declaration.

Section 6.38 Roofing Materials. The roofing materials on all Residences shall be of a quality, style and composition acceptable to the Architectural Control Committee.

Section 6.41 Wells. Water wells, which are approved by the Architectural Control Committee and may be used only for irrigating lawns and landscaping, may be drilled on Lots and Common Areas so long as the water from such wells will not discolor sidewalks or concrete and, in the event of such discoloration, the responsible Owner shall be liable and responsible for all clean-up costs. ARCHITECTURAL CONTROLS

Section 7.1 Approvals. Approvals, determinations, permissions, or consents required herein shall be deemed given only if they are given in writing and signed, by an authorized member of the Declarant with respect to approvals to be obtained from the Declarant, by an officer of the Association with respect to approvals to be obtained from the Association and by a member of the Architectural Control Committee with respect to approvals to be obtained from the Architectural Control Committee. The Architectural Control Committee may, in its discretion, unilaterally
promulgate written architectural and design Architectural Control guidelines (the "Guidelines") which shall be binding upon the Owners.

Section 7.2 Architectural Control Committee. An Architectural Control Committee, composed of at least three (3) members, shall exist and shall be appointed by the Declarant until the end of the Development Period, and appointed by the Board of Directors thereafter. Such members shall be subject to removal by the Declarant at any time, with or without cause, until the end of the Development Period, and subject to removal by the Board of Directors at any time, with or without cause, thereafter. Any vacancies from time to time shall be filled by appointment by the Declarant until the end of the Development Period, and by appointment by the Board of Directors thereafter.

Section 7.3 Duties of Architectural Control Committee. The Architectural Control Committee shall approve or disapprove proposed improvements within thirty (30) days after all required information has been submitted to the Architectural Control Committee. The Architectural Control Committee, for its permanent files, shall retain one copy of submitted material. All notifications to applicants shall be in writing and, in the event that such notification is one of disapproval, the requesting applicant may re-apply with changes. If, however, approval has not been received by the applicant in writing within thirty (30) days, then said request shall be deemed denied.

Section 7.4 Exercise of Discretion. Declarant intends that the members of the Architectural Control Committee shall exercise discretion in the performance of their duties consistent with the provisions of this Declaration, and every Owner by the purchase of a Lot shall be conclusively presumed to have consented to the exercise of discretion by such members of the Architectural Control Committee. In any judicial proceeding challenging a determination by the Architectural Control Committee and in any action initiated to enforce this Declaration in which an abuse of discretion by the Architectural Control Committee is raised as defense, abuse of discretion may be established only if a reasonable person, weighing the evidence and drawing all inferences in favor of the Architectural Control Committee, could only conclude that such determination constituted an abuse of discretion.

Section 7.5 Inspection. The Architectural Control Committee may inspect work being performed without the Owner's permission to verify compliance with the Declaration.

Section 7.6 Liability of Architectural Control Committee, Declarant and Association. Neither the Architectural Control Committee nor any agent thereof, nor the Declarant, or the Association shall be liable in any way for any costs, fees, damages, delays, or any charges or liability whatsoever relating to the approval or disapproval of any plans submitted to it, nor shall the Architectural Control Committee, Declarant or Association be responsible in any way for any defects in any plans, specifications or other materials submitted to it, or for any defects in any work done according thereto. Further, the Architectural Control Committee, Declarant and Association make no representation or warranty as to the suitability or advisability of the design, the engineering, the method of construction involved, whether the improvements result in any encroachments, the compliance of proposed plans with Applicable Laws, or the materials to be used. All parties should seek professional construction advice, engineering, and inspections of
each Lot prior to purchasing the Lot, commencing original construction on said Lot or installing any fences, landscaping, additions, remodeling or other improvements on said Lot.

Section 7.7 Common Areas Entrances, Street Signs, and Landscape Easements. None of the following shall be installed or constructed without prior written approval thereof by the Architectural Control Committee: (i) any landscaping, fences, structures, lighting, walking trails, sidewalks, or other improvements located in any Common Area, landscape maintenance access easement, landscape easement or sign easement, (ii) any entrance monument or signage identifying the Property or any section thereof and (iii) street signage.

Section 7.8 Lot Improvements. No Residence, dwelling, building structure, fence, deck, driveway, swimming pool, rear yard tennis or basketball courts, or improvement of any type or kind (including significant landscaping or stacking of wood) shall be constructed or placed on any Lot without the prior approval of the Architectural Control Committee. The Architectural Control Committee’s determination may be obtained only after the Owner of the Lot requesting authorization from the Architectural Control Committee has made written application to the Committee. Such written application shall be in the manner and form prescribed from time to time by the Architectural Control Committee, and shall be accompanied by two (2) complete sets of plans and specifications for any such proposed construction or improvement. Such plans shall include plot plans showing (i) the location of the improvements existing upon the Lot and the location of the improvement proposed to be constructed or placed upon the Lot, each property and clearly designated and (ii) all easements, setbacks, and rights-of-way and (iii) any landscape plans required by the Architectural Control Committee. Such plans and specifications shall further set forth the color and composition of all exterior materials proposed to be used and any proposed landscaping, together with any other materials, photographs, or information, which the Architectural Control Committee may require. The exterior materials proposed to be used and the proposed landscaping shall comply with the Guidelines, unless otherwise approved by the Architectural Control Committee. All building plans and drawings required to be submitted to the Architectural Committee shall be drawn to a scale of 1/4" = 1' and all plot plans shall be to a scale of 1" = 10', or to such other scale as the Architectural Control Committee shall deem appropriate. It is also recommended that a certified survey be prepared to insure that there are no encroachments onto adjacent Lots or Common Areas. If an Owner has encroached on an adjacent Owner's property or in a Common Area, the encroaching Owner must, at his or her own expense, move any fence or other improvement(s) so as to eliminate the encroachment, except for connecting a fence to an existing fence on an adjoining Lot located within six inches of the property line pursuant to Section 6.9 of this Declaration. Notwithstanding anything to the contrary in the foregoing, upon receipt of any written application which is in form and content acceptable to the Architectural Control Committee in the Architectural Control Committee’s sole and absolute discretion, the Architectural Control Committee may pre-approve a Builder's plans and specifications for the original construction of a Residence and, in the event of such pre-approval, the Builder shall then be authorized to construct the pre-approved Residence on different Lots without further approvals from the Architectural Control Committee.

Section 7.9 Power of Disapproval. The Architectural Control Committee may refuse to grant permission to construct, place or make the requested improvement with or without cause. By
way of example only, common grounds for denial include, but are not limited to, a deficiency in or absence of the following:

(A) The plans, and specifications, required to be submitted; and

(B) The consistency of the design, color scheme, and square footage of a proposed improvement with the general surroundings of the Lot or with adjacent buildings or structures.

Section 7.10 Power to Grant Variances. The Architectural Control Committee may allow reasonable variances or adjustments of this Declaration where literal application would result in unnecessary hardship, but any such variance or adjustment shall be granted in conformity with the general intent and purposes of this Declaration, no variance or adjustment shall be granted which is materially detrimental or injurious to other Lots, and any such variance granted shall not be considered as precedent setting.

Section 7.11 Statement of Purposes and Powers. Subject to this Declaration and the restrictions contained herein, the Architectural Control Committee shall regulate the external design, appearance, use, location and maintenance of lands and improvements thereon in such a manner as to preserve and enhance values and maintain a harmonious relationship among structures and the natural vegetation and topography.

Whenever two or more contiguous Lots shall be owned by the same person, and such Owner shall desire to use two or more of said Lots as a site for one, single Residence, such Owner must apply in writing to the Architectural Control Committee for permission to so use said Lots. If permission for such a use shall be granted, the Lots constituting the site for such one, single Residence shall be treated as a single Lot for the purpose of applying this Declaration to said Lots, so long as the Lots remain improved with only one, single Residence; provided, however, that with respect to the combined Lots, the Owner of the combined Lots shall be obligated to pay Annual Assessments, One-Time Assessments, and Special Assessments for each originally platted Lot constituting the combined Lots, and such Annual Assessments, One-Time Assessments, and Special Assessments shall be a lien on the combined Lots, all per the terms and conditions of Article XI below. Section 11.8 Notice and Due Date. Written notice of Special Assessments and such other Assessment notices as the Board of Directors shall deem appropriate shall be delivered to every Owner subject to such Assessment. The due dates for all Assessments shall be established by the Board of Directors.

Section 11.9 Assessment Liens. All Assessments, together with interest thereon, attorney's fees, and other costs of collection permitted by this Declaration to be collected, shall be a charge on the land and shall be a continuing lien, until paid in full, upon the Lot against which each Assessment is made. Each Assessment, together with interest thereon and costs of collection
thereof, including reasonable attorney fees, shall also be the personal obligation of the Owner of the Lot at the time when the Assessment became due.

Section 11.10 Failure of Owner to Pay Assessments. No Owner, by waiver of the use or enjoyment of the Common Areas, or by abandonment of the Residence belonging to such Owner, may exempt himself or herself from paying Annual Assessments, One-Time Assessments, Special Assessments, or Violation Assessments, or from contributing toward the expenses of administration or maintenance and repair of the Common Areas, or from any other expense lawfully agreed upon. Each Owner shall be personally liable for the payment of all Annual Assessments, One-Time Assessments, Special Assessments, Violation Assessments and all other charges applicable to such Owner and such Owner's Lot. Where the Owner constitutes more than one Person, the liability of such Persons shall be joint and several. If any Owner shall fail, refuse or neglect to make any payment of any Annual Assessments, One-Time Assessments, Special Assessments, or Violation Assessments when due, the lien for such Assessment on the Owner's Residence may be foreclosed by the Association in the same manner as mortgages are foreclosed in the State of Indiana or as otherwise specified under the Applicable Laws. Upon the failure of an Owner to make payments of any Annual Assessments, One-Time Assessments, Special Assessments, or Violation Assessments within ten (10) days after such due, the Board of Directors, in its sole discretion and regardless of whether litigation is commenced, may:

(1) impose a uniform late charge, which will be considered an addition to the Assessment, in an amount to be determined by the Board of Directors of up to twenty-five percent (25%) of the amount of the Assessment;

(2) accelerate the entire balance of the unpaid Assessments for the remainder of the fiscal year and declare the same immediately due and payable, notwithstanding any other provisions hereof to the contrary;

(3) require that, in addition to the delinquent Assessment and any applicable late charge, the Owner of the respective Residence also pay (i) any attorney's fees incurred incident to the collection of the delinquent Assessment and (ii) collection costs incurred by the Association to the managing agent for processing delinquent Owners' accounts;

(4) suspend such Owner's right to use the Common Areas as provided in the Indiana Nonprofit Association Act of 1991, as amended; and

(5) suspend an Owner's right to vote if such Owner is more than six (6) months delinquent.

In any action to foreclose the lien for any Assessments, the Board of Directors shall be entitled to the appointment of a receiver for the purpose of preserving the Residence and to collect the rentals and other profits therefrom for the benefit of the Association to be applied to any unpaid Annual Assessments, One-Time Assessments, Special Assessments, or Violation Assessments. The Board of Directors may, at its option, bring a suit to recover a money judgment for any unpaid Annual Assessments, One-Time Assessments, Special Assessments, or Violation Assessments without foreclosing or waiving the lien securing the same. In any action to recover an Annual Assessment,
One-Time Assessment, Special Assessment, and Violation Assessment, whether by foreclosure or otherwise, the Board of Directors, for and on behalf of the Association, shall be entitled to recover costs and expenses of such action incurred, including but not limited to collection costs incurred by the Association to the managing agent for processing delinquent Owners’ accounts and reasonable attorney’s fees, from the Owner of the respective Residence.

Section 11.11 Certificates. The Association shall, upon reasonable request by an Owner, at any time, furnish a letter in writing signed by an officer of the Association, indicating the accounting status of Assessments on a Lot, and showing the balance due the Association, if any.

Section 11.12 Subordination of the Lien to Mortgages. The Sale or transfer of any Lot shall not affect the lien of Assessments levied under this Article XI; provided, however, (i) that the lien of the Assessments provided for herein against a Lot shall be subordinate to the lien of any recorded, first mortgage covering such Lot and (ii) that the sale or transfer of any Lot pursuant to mortgage foreclosure or any proceeding or deed in lieu thereof, while not relieving the Owner at the time the Assessment was due of personal liability therefore, shall extinguish the lien of such Assessments which became due or are attributable to the period of time prior to such sale or transfer. No such sale or transfer, however, shall relieve such Lot from liability for any Assessments thereafter becoming due or from the lien thereof.

ARTICLE XII

REMEDIES

Section 12.1 Delay or Failure to Enforce. No delay or failure on the part of any aggrieved party to invoke any available remedy with respect to a violation of any one or more of covenants, conditions, and restrictions in this Declaration shall be held to be a waiver by that party or an estoppel of that party of any right available to such party upon the occurrence, reoccurrence or continuation of such violation or violations of this Declaration.

Section 12.2 In General. The Association, the Declarant and/or any Owner, may proceed at law or in equity to prevent the occurrence or continuation of any violation of these Restrictions, or to compel compliance with these restrictions and covenants, and shall be entitled to recover costs of collection and reasonable attorney’s fees; however, neither the Declarant, nor the Association, shall be liable for damages of any kind to any person for failing either to abide by, enforce, or carry out any terms, conditions, or restrictions contained in this Declaration.

ARTICLE XIII

EFFECT ON BECOMING AN OWNER

Section 13.1 The Owner(s) of any Lot subject to this Declaration, by acceptance of a deed conveying title thereto, or by virtue of the execution of a contract for the purchase thereof, whether from Declarant, a Builder, or a subsequent Owner of such Lot, shall accept such deed and execute
such contract subject to each and every covenant, condition, and restriction contained in this Declaration. By acceptance of such deed or execution of such contract, each Owner acknowledges the rights and powers of the Declarant, the Architectural Control Committee, and the Association contained in this Declaration, and also, for themselves, their heirs, personal representatives, successors and assigns, such Owner(s) covenant and agree and consent to and with the Declarant, the Architectural Control Committee, and the Association to keep, observe, comply with and perform such covenants, conditions, and restrictions contained in this Declaration.

ARTICLE XIV

TITLES

Section 14.1 The titles preceding the various Sections and paragraphs of this Declaration are for convenience of reference only and none of them shall be used as an aid to the construction of any provisions of this Declaration. Wherever and whenever applicable, the singular form of any word shall be taken to mean or apply to the plural, and the masculine form shall be taken to mean or apply to the feminine or to the neuter.

ARTICLE XV

MISCELLANEOUS

Section 15.1 Severability. Invalidation of any one of the covenants, restrictions or provisions contained in this Declaration by judgment or court order shall not in any way affect any of the other provisions hereof, which shall remain in full force and effect. No delay or failure by any person to enforce any of the restrictions or to invoke any available remedy with respect to a violation or violations thereof shall under any circumstances be deemed or held to be a waiver by that person of the right to do so thereafter, or as estoppel of that person to assert any right available to him upon the occurrence, recurrence or continuation of any violation or violations of the restrictions.

Section 15.2 Statute of Frauds. If any of the covenants, conditions, restrictions, or other provisions of this Declaration shall be unlawful, void, or voidable for violation of the rule against perpetuities, then such provisions shall continue only until twenty-one (21) years after the death of the last survivor of the now living descendants of George Herbert Walker Bush, former President of the United States of America.

Section 15.3 Duration. This Declaration and its covenants and restrictions are for the mutual benefit and protection of the present and future Owners, the Association, and Declarant, and shall run with the land and shall be binding on all parties and all Persons claiming under them until January 1, 2070, at which time said covenants and restrictions shall be automatically extended for successive periods of ten (10) years unless changed per the terms of Article XVII below.
ARTICLE XVI

DECLARANT'S RIGHTS

Section 16.1 Any and all of the rights and obligations of the Declarant set forth in this Declaration may be transferred, in whole or in part, to other persons or entities, provided that the transfer shall not reduce an obligation nor enlarge a right beyond that contained in this Declaration. No such transfer shall be effective unless it is in a written instrument signed by the Declarant and duly recorded with the Recorder of Hendricks County, Indiana.

Section 16.2 Nothing in this Declaration shall be construed or applied in a manner that limits or restricts the Declarant or the Builder in the development of the Property or the construction of Residences within the Property. Therefore, notwithstanding anything in this Declaration to the contrary, the Declarant and Builder may maintain and carry out upon any portion of the Property, including any Common Area, Lot, and/or such facilities and activities as, in the opinion of the Declarant or Builder, may be reasonably required, convenient, or incidental to the development of the Property and the construction or sale of Residences including, without limitation, business offices, signs, model units, sales offices, and sales and construction trailers.

ARTICLE XVII

AMENDMENT TO THIS DECLARATION

Section 17.1 Except as expressly prohibited in this Declaration, this Declaration may be amended or modified from time to time and at any time by an instrument recorded in the Office of the Recorder of Hendricks County, Indiana, approved and signed by at least seventy-five percent (75%) of the then Owners. Provided, however, that none of the rights or duties of Declarant reserved or set out hereunder may be amended or changed without Declarant’s prior written approval. Until the end of the Development Period, this Declaration may also be amended unilaterally, from time to time and at any time, without notice or vote, by Declarant in the Declarant's sole discretion.

FIRST AMENDMENT TO DECLARATION OF COVENANTS, CONDITIONS AND RESTRICTIONS OF NEWBURY AT WEST WYNNCE FARMS

This First Amendment (the "First Amendment") to the Declaration of Covenants, Conditions and Restrictions of Newbury at West Wynne Farms is effective as of this 11th day of October, 2016.

WITNESSETH:

WHEREAS, (i) the Declaration of Covenants, Conditions and Restrictions of Newbury at West Wynne Farms was recorded with the Recorder of Hendricks County, Indiana on the 8th day of February, 2016 as Instrument Number 201602880 (the "Declaration");

WHEREAS, as set forth in the Declaration in Section 17.1, the Declarant, until the end of the Development Period, may unilaterally amend the Declaration in its sole discretion;

WHEREAS, Declarant still owns a majority of the Property and the Development Period has not expired;

WHEREAS, the Declarant is desirous of amending the Declaration in order to modify the restrictions set forth therein as they relate to fencing on the Lots; and

WHEREAS, unless otherwise defined in this First Amendment, all words, terms, and phrases used throughout this First Amendment shall have the meaning ascribed to them in the Declaration.

NOW, THEREFORE, in consideration of the foregoing preambles and recitations, it is acknowledge and agreed, as follows:

1. The foregoing preambles, recitations, and definitions are made a part hereof as though fully set forth herein.
2. Section 6.9 of the Declaration is hereby deleted in its entirety and replaced and superseded with the following:

"Section 6.9 Fencing. This Section 6.9 is applicable to all Lots except those Lots which are used for a sales office or model home by the Declarant or a Builder. No fence, wall, hedge, or shrub planting shall be permitted between the front property line and the front building setback line except where such planting is part of Residence landscaping approved by the Architectural Control Committee. Trees shall not be deemed "shrubs" unless planted in such a manner as to constitute a "hedge". In addition to the aforementioned the fencing standards shall be:

(A) No fence may be erected on a Lot without prior written approval of the Architectural Control Committee.

(B) All fencing erected on a Lot must be located either (i) on, (ii) within six inches of, or (iii) a minimum of thirty-six inches away from any rear or side property line of such Lot. An Owner of a Lot adjoining another Lot on which an existing Architectural Control Committee approved fence has been erected on or within six inches of the common property line shall have the right to connect a fence to the fence on the adjoining Lot provided that the new fence satisfies all of the criteria expressed herein and is approved by the Architectural Control Committee. Such a connection in no way means the abdication of property or establishment of grounds for adverse possession. If an Owner chooses not to connect to an abutting fence, or cannot connect due to easement encroachment or other restrictions, then the fence must be a minimum of thirty-six inches away from the adjoining property line.

(C) Where no common fence is shared, each Owner shall be responsible for maintaining their portion of the Lot outside of the fence, and has the right to enter the adjoining Owner's property in order to perform such maintenance. If, however, a common fence is shared, then each Owner shall only be responsible for maintaining the portion of property on their side of the fence.

(D) Fences shall not be allowed between the front corner of the Residence and the public right-of-way, except on a Lot containing a Builder's model home, and then removed once the model has been sold to a resident.

(E) No fence shall be allowed within a Tree Preservation Easement. For proposals that include fence locations within Drainage and Utility Easements the Architectural Control Committee may issue a "conditional approval" which requires the Owner to obtain written permission to encroach from the Grantee of the easement. If permission is not obtained or alternate restrictions are imposed by the Grantee, the Owner needs to adjust the location of the fence to avoid the easement altogether or to accommodate such alternate restrictions imposed by the Grantee (provided that the fence be located a minimum of thirty-six inches away from the property line).

(F) Owners shall be responsible for obtaining any and all required building permits.
(G) Prior to fence construction Owners shall be responsible for determining the location of their property lines by having their property corners staked by a Professional Engineer or Land Surveyor or by physically locating previously installed lot corner monuments. The Association, the Board, and the Architectural Control Committee shall not be responsible for mediating property disputes between residents.

(H) Permitted fence construction materials shall include any combination of metal, wood, vinyl or composite material, provided that differing materials be integral to the design pattern.

(I) Permitted fence style types shall include privacy, shadow box, picket and others as approved by the Architectural Control Committee.

(J) Prohibited fence style types shall include (but not be limited to) chain link, chicken wire or split rail.

(K) No fence shall exceed seventy-two inches in height. However, fences constructed on a Lot “adjacent” to a pond (i.e. if side yard Lot lines were to intersect any part of a pond when extended) shall be restricted to a maximum height of forty-eight inches in the rear yard portion of the Lot commencing at the rear foundation of the Residence.

(L) All fences shall be of professional quality construction and kept in good repair. For wood fences, clear coat, earth-tone stain and/or earth-tone paint treatments shall be incorporated (i.e. no bare wood).

(M) Proposals for food garden enclosures and privacy screens shall be reviewed by the Architectural Control Committee independently and subjectively from the aforementioned standards according to site-specific conditions.”

3. All provisions of the Declaration, which are not amended by this First Amendment, shall remain unchanged and in full force and effect, and the Declaration, as amended by this First Amendment, shall remain in full force and effect.

(signature appears on the next page)
IN WITNESS WHEREOF, this First Amendment to Declaration of Covenants, Conditions and Restrictions of Newbury at West Wynne Farms is executed as of the date first above written.
