admitted to the Architectural Control Committee with any other information and received the Architectural Control Committee's approval. Each such label shall be attached to the building at the time of occupancy and shall be placed not less than two feet below the finished grade and in a place where it can be easily read. The Architectural Control Committee shall have the right to change any such label at any time in its discretion.

18. All type or which construction has been begun must be continued and completed in the year in which such construction was begun. No change in the use of the land shall be made without the written consent of the Architectural Control Committee. Any violation of the provisions of this section shall be punishable by the Architectural Control Committee.

19. All alterations or additions to the buildings shall be made in accordance with the approved plans and specifications of the Architectural Control Committee. No such alterations or additions shall be made without the written consent of the Architectural Control Committee.

20. No interior dimensions or elevations shall be varied without the written consent of the Architectural Control Committee.

21. All alterations or additions to the buildings shall be made in accordance with the approved plans and specifications of the Architectural Control Committee. No such alterations or additions shall be made without the written consent of the Architectural Control Committee.

22. All alterations or additions to the buildings shall be made in accordance with the approved plans and specifications of the Architectural Control Committee. No such alterations or additions shall be made without the written consent of the Architectural Control Committee.

23. All alterations or additions to the buildings shall be made in accordance with the approved plans and specifications of the Architectural Control Committee. No such alterations or additions shall be made without the written consent of the Architectural Control Committee.
