All easements shown as “Utility Easements” are also to be considered drainage easements and are subject to all restriction and maintenance assessments of drainage easements. No permanent, or other, structures are to be erected or maintained upon any easements shown upon plat and owners of lots shall take their titles sub-
ject to the rights of the above easement. Fences, trees, landscape shrubs, gardens, and so on erected on easements may be removed by easement holders at the lot owner’s expense if deemed necessary for the proper operation and maintenance of the facilities for which the easements are reserved.

No vehicle of any kind shall park on any street or road in this subdivision excepting for a reasonable length of time. The committee shall determine what constitutes reasonable length of time.

26. **SIGHT DISTANCE AT INTERSECTIONS:** No fence, wall, hedge, shrub planting which obstructs sight lines at elevations between two feet and six feet above the roadways shall be placed or permitted to remain on any corner lot within the triangular area formed by the street property lines and a line connecting them at points twenty-five feet from the intersection of the street line. The same sight line limitations shall apply on any lot within ten feet from the intersection of a street's property line with edge of driveway. No trees shall be permitted to remain within such distance of such intersection unless the foliage line is maintained at such height to prevent obstruction of such sight lines.

27. **SIDEWALKS AND PRIVATE DRIVES:** All private drives shall be paved of concrete; sidewalks of concrete. Both must be installed according to local code and requirements and must be completed at time of construction and before occupancy weather permitting. It is the responsibility of the owner of the lot to install and maintain in good condition said sidewalk at the sides of all streets upon which his lot abuts. Sidewalks shall conform with the lines and grades established by the committee. Each owner shall be responsible for grading and finishing yard slopes, erosion control, and decorative landscaping as required by the committee. shall be placed on a four inch aggregate base.

28. **CRAWL SPACE, BASEMENT AND FOUNDATION DRAINS:** 
No crawl spaces, basements, eaves troughs, gutters, downspouts, or foundation perimeter drains shall be constructed to discharge water on the street. Crawl space drains, foundations drains, basement drains intercepting and carrying only excess ground water may connect to subsurface drains already in place for that purpose. Should any subsurface drain become blocked, partially blocked, or damaged with resulting damage to another lot owner and or to the drainage system of any street, the owner causing said blocking and or damage shall be liable for all damages to the injured party or parties, the developer, town of Danville, or Hendricks County, and shall hold all contractors, engineers, developers, other lot owners, and said local entities harmless from liability therefrom. Check valves shall be installed in the discharge pipes connecting all storm or subsurface drains.

29. **ENTRANCE EASEMENT:** Entrance Easement shown on said plat is an easement reserved by the developer in favor of the committee, as defined on said plat, for landscaping, planting, and other beautification’s and for the erection and maintenance of a facade, wall, or other structure or device designed to display the name of the subdivision.

30. **USE OF SANITARY SEWER EASEMENTS:** Public utility companies shall have the same rights to use sanitary sewer easements shown on the plat that are reserved for said companies in utility easements.

31. **STAKING:** The Developer of Stratford Ridge will set corner stakes **one** time. Wherever possible to be driven, corner stakes will consist of 3/4 inch metal about 30 inches long set so as to leave about one or more inches of metal protruding above ground unless a different type of monument appears on the recorded plat. Laths, with or without flags, driven beside metal stakes do not constitute corner stakes but serve only to signalize and identify corner stakes. Said corner stakes will not only furnish a means for determining lot boundaries, but may aid in the location and orientation of improvements to be constructed on the lots. Lot owners shall have charge and care of stakes marking their respective lots and shall be responsible for their preservation. Since restoration will be at the lot owner’s expense, said owners should become familiar with stake locations and do all things necessary to maintain and protect them. Lot owners
may hire developer’s engineer to replace stakes damaged or destroyed from any cause, or may engage any registered land surveyor to perform that work.

Accidental displacement of stakes and laths during the construction of public and private improvements, and intentional displacement due to vandalism, may cause conflicts between plat locations and staked locations of lot corners and lines. Stratford Development Corporation nor its engineers or surveyors, or engineers express or imply any warranty with regard to the correctness of disturbed stakes. Therefore, lot owners and their independent contractors, including their engineers and surveyors, together with utility companies who may install facilities according to stakes in place, shall recognize and act not only by the actual notice on the ground to which they are exposed, but also by the constructive notice afforded by the recorded plat of the subdivision. Before starting any excavation, building, or other improvement, they shall be responsible for comparing all linear and angular measurements between corner stakes found at the site with such dimension exhibited on said recorded plat. They shall correct at once any discrepancies discovered in the stakes.

32. MUD CONTROL: Prior, during, or after construction of any lot, the owner of said lot or his agents shall construct a driveway or similar graveled or other improved surface on said lot for the delivery of supplies that will discourage or hinder the tracking of mud or other debris from the lot upon public streets. To further prevent vehicles from distributing mud or other debris on the streets or any area of Stratford Ridge, said owner or his agent shall line the lot side of any curb adjoining that lot with bales of straw, silt fencing, or erect any other barrier to block vehicles leaving the lot excepting at the driveway or on any public other appropriately-surfaced area. Should mud or other debris be distributed on any public street or other area of Stratford Ridge, as a result of any activity on any lot, the owner of that lot shall be responsible for the removal of that mud or debris on the date of its placement. The committee may enforce this provision by any mechanism or procedure described in Section numbered 13. The owner further holds Stratford Development Corporation its agents, engineers, contractors, the town of Danville, and Hendricks County, Indiana, harmless from any liability that might result from violation of or failure to conform with this or any other section of these restrictive covenants.
33. MAILBOXES: Stratford Development Corporation will furnish specifications to be located as directed by the committee. The owner or his contractor shall purchase and install said mailbox at the owner’s expense. No other types of mailbox or mailbox post shall be erected or be permitted to remain at any lot unless approved by the Committee.

34. ENFORCEMENT: If the parities hereto, or any of them, or their heirs or assigns, shall violate or attempt to violate any of the covenants herein, it shall be lawful for any person or persons owning any lot or lots in this subdivision to prosecute by any preceding at law or equity the person or persons violating or attempting to violate any such covenant, and prevent him or them from so doing or to recover damages or other dues for such violation. A violation of any restriction herein will not result in reversion or forfeiture of title. If any owner of a lot in this subdivision shall fail to maintain his lot and/or any improvements situated thereon, or to keep sight distances clear, or to construct and/or maintain sidewalks in accordance with these restrictive covenants, the committee shall have the right, but not the obligation, by and through its agents and employees or contractors, to enter upon said lot and repair, mow, clean, or to perform such other acts as may be reasonably necessary to make said lot, and/or any improvements situated thereon, conform to the requirements of these restrictions. The committee shall collect its cost thereof in any reasonable manner from the owner. Neither the committee nor any of its agents, employees, or contractors shall be liable for any damage that may result from any maintenance or other work performed hereunder. Any amount so assessed against any lot together with interest and other charges or costs as herein provided, become and remain a lien upon that lot subordinate only to the lien of a first mortgage previously recorded until paid in full, and shall also be a personal obligation of the owner or owners of that lot. Such charge shall bear interest at the rate of 19% per annum until paid in full. If, in the opinion of the committee, such charge has remained due and payable for an unreasonably long period of time, the committee may institute such procedures, either at law or in equity, by foreclosure or otherwise, to collect the amount owing, in any court of competent jurisdiction. The owner of the lot or lots subject to the charge shall, in addition to the amount of the charge due to the time legal action is instigated shall be obligated to pay any expenses or costs, including attorney’s fees, incurred by the committee in collecting the same. Every lot owner in this subdivision, and any person who may acquire any interest in said lot, whether as an owner or otherwise, is hereby notified, and by such acquisition of such interest agrees, that any such liens which may exist upon said lot at the time of the acquisition of such
interest are valid liens and shall be paid. Every person who shall become an owner of a lot in this subdivision is hereby notified that by the act of acquiring making such purchase, or acquiring such title, such person shall be conclusively held to have covenanted to pay the committee all assessments that nated herein to the committee shall likewise be extended to any lot owner as a result of a violation of any covenant herein.

35. **TERM:** These covenants will run with the land and shall be binding on all parties, and all persons claiming under them, for a period of twenty-five (25) years from the date these covenants are recorded, for successive ten (10) year periods, unless an instrument signed by a majority of the lots has been recorded agreeing to change said covenants in whole or in part.
