Subdivision Covenants and Restrictions

The information is provided as a public service only. The information on this site is general in nature, unofficial and is not a valid reference for any legal purposes. The user agrees to hold harmless, protect, indemnify, and forever release First American Title Insurance Company and its officers, directors, agents, and employees, from and against any and all liabilities, losses, damage, expenses and charges, including but not limited to attorneys' fees and expenses of litigation, which may be sustained or incurred by the user under, or arising directly or indirectly out of the use of the information contained in this site.
other areas within the boundary of Thorn Ridge, Section 1, to itself and its grantees, assigns, successors, legal representatives, and to any person, partnership, corporation, firm, or association and their legal representatives, assigns, successors, and to any person, partnership, corporation, firm, or association and their legal representatives, assigns, successors, at any time, may acquire title to any of said lots or other areas, as to the following terms, covenants, conditions, restrictions, and conditions that shall apply in their entirety to all of said subdivision:

DEFINITIONS. "Developer" shall mean Thorn Ridge, Inc. "Owner" shall mean the person or collection of persons who has or have acquired or is acquiring any right, title, or interest, legal or equitable, in and to any lot in this subdivision, but excluding those persons having such interest merely for security for the performance of an obligation.

"Committee" shall mean the Architectural and Environmental Control Committee comprised of the officers and directors of Thorn Ridge, Inc. and their duly authorized representatives, all of whom shall serve without compensation for services performed as committee members. In the event Thorn Ridge, Inc. is dissolved, the then existing committee members shall appoint an owner to take said member's position on the committee. Upon the death or resignation of any member of said committee, a remaining member or members shall have full authority to perform the duties of the committee, or to designate a representative with like authority, who must be an owner. "Flood Protection Grade" is defined in the Table of Elevations hereunder.

2. LAND USE. All lots are restricted to residential use. See Section numbered 21 below. The subdivision of a lot is prohibited unless said division creates two building sites on three adjoining lots, which building sites comply with the Hendricks County zoning and subdivision regulations and with these covenants. Where a lot is subdivided, or where an owner acquires adjoining lots for the purpose hereinafter and in Section numbered 2 below shall not apply to said common lot line. Construction of lots across drainage easements of utility easements that coincide with lot lines is prohibited.

3. RESIDENCE SIZE. No residence shall be erected, altered, placed, or permitted to remain on any lot or on any one single-family residence three stories or less in height, residence on all lots shall have at least one, unattached two-car garages. The ground floor area of the main structure of any one-story residence, excluding garages, porches, shall be not less than 1,000 square feet. The ground floor area of the main structure of any multi-story residence, excluding garages and porches, shall be not less than 800 square feet, with not less than a total of 1,000 square feet of finished floor space in each multi-story structure. A residence with a "bonus room" on a second story level will be treated as a multi-story residence and shall meet all the above requirements for multi-story residences. No house plans shall be approved unless at least 60 percent of the front elevation, including gables and overhangs, is brick veneer.

4. ACCESSORY BUILDINGS. An accessory building may be constructed with the minimum size to be no less than 200 square feet and the maximum size of 144 square feet. Accessory buildings shall conform to the standards of construction used in the main structure on the lot. Including color and design. Any all-metal exterior coverings on accessory buildings. All accessory buildings shall be located no nearer than 8 feet from the front property line and no nearer than 10 feet from any side or rear property line.

5. BUILDING SETBACK DISTANCES. Between the front lot line and the building lines shown on these plat, no buildings shall be erected, placed, altered, or permitted to remain, nor shall any building be erected nearer than 10 feet to any side line of a lot on the side, and the total of both side setbacks shall be not less than 30 feet. Architectural appurtenances, projections not more than 24 inches, stairways projecting not more than 4 feet, unenclosed and unscreened porches, steps, and walls are exempt from these setback requirements. Lot use in all other respects will conform with the regulations of the Hendricks County Plan Commission unless these covenants are more restrictive, in which case these covenants shall control.

6. OCCUPANCY OF STRUCTURES. No residence shall be occupied or used for residential purposes or human habitation until it has been fully completed, upon the outside and substantially completed on the inside, and a Certificate of Occupancy has been issued therefor by Hendricks County. The use of any other structure or mobile home as a residence, either temporarily or permanently, is prohibited.

Pursuant to IC 56-7-4500 et seq., and all amendments thereof, the undersigned do hereby certify that the public notice of the hearing by the Hendricks County Plan Commission on the foregoing owner's application for approval of this plat duly complied with IC 56-7-4500 and all amendments thereof, and that said plat was approved at said hearing with a majority of the members of said Commission concurring in said approval.

Given under our hands and seal this 11 day of APRIL, 1994.

[Signatures]
Section 1

7. ARCHITECTURAL DESIGN. No building, wall, fence, or other structure shall be constructed, erected, placed, or altered in this subdivision until the location plan, building plans, and specifications have been submitted to, and approved by, the committee as to harmony with the exterior design, quality, and scale, and with the aesthetic appearance of structures already built, and as to conformity with the accompanying Table of Elevations, destruction of trees and other vegetation, and any other such matters as may affect the environment or ecology of the subdivision. The committee’s approval, or disapproval, is required in these covenants shall be in writing. If the committee, or the appointed representative, fails to approve or disapprove any plans and specifications within fifteen (15) days after such plans and specifications are submitted to it or, in any event, if no suit to enjoin the construction has commenced before the completion thereof, approval will not be required and the related covenants shall be deemed to have been fully complied with.

8. IMPROVEMENT LOCATION PERMIT. In addition to the approval required in Section numbered 7 above, Hendricks County must issue an Improvement Location Permit before any structure, improvement, or land use may be altered, changed, placed, erected, or located in this subdivision. The Hendricks County Plan Commission has approved a soil and water conservation plan (erosion control plan) and a development plan showing house locations, first floor elevations, and an “emergency flood zone” with slopes for positive surface drainage throughout. Prior to house construction, each owner is obligated to inspect his lot to ensure that the developer’s drainage facilities will remove all free water from the surface of the lot. He shall report at once to the developer any deficiencies found. The owner shall develop his lot in a way that assures that finished slopes, grades, and erosion control measures comply with said soil, water, and development plans after completion of all improvements and landscaping. See Section numbered 25 below. Said plans may be inspected in the office of said Commission during regular office hours. Deviations from these plans require prior commission approval and may necessitate a site reevaluation and redesign by a Registered Professional Engineer or a Registered Land Surveyor at the time of improvement location permit and certificate of occupancy application, which engineer or surveyor shall certify positive surface drainage and erosion control measures. If not in accordance, the developer shall be accountable to the developer and the Hendricks County Drainage Board for damages caused by him or his contractors to drainage facilities built by the developer. In the event of such damages, the owner shall be notified of the necessity for repairs, if damage is found, after which time, if no action is taken by the owner, the committee may select the procedure described in Section numbered 45 below.

The Table of Elevations appearing as said development plans and at the end of this document shows, for each lot, first floor elevations for houses if constructed at the locations shown on said development plan.

9. WATER SUPPLY SYSTEMS. The central water supply system of the Indianapolis Water Company, in lieu of individual water wells, shall be used in this subdivision. The Hendricks County Plan Commission is hereby granted right of enforcement of this covenant.

10. FENCES require committee approval before erection as provided in Section numbered 7 above. No fence shall be placed on any lot or boundary thereof that will obstruct reasonable light, air, or view, or will otherwise hinder or damage the aesthetics of the subdivision. No fence shall be erected in front of the front-most side corners of any residence. Swimming pools shall be properly fenced to protect the safety of others as required by Section numbered 25 below. Fences in easements are erected at the owner’s risk as such fences may be partially or completely torn down by others if they interfere with the installation, operation, and/or maintenance of the facilities for which the easements have been reserved.

11. CONSTRUCTION TIME. Unless delayed by court injunction, war, or an act of God, any residence, fence, wall, sewer, ditch, or any structure on any lot, once approved and under construction, must be completed six (6) months from the date construction began, after which time the committee may, without notice, enter, take possession of said lot, and sell the same together with improvements, and all other property on and expenses, pay the balance of the sale proceeds to the owner of the lot at the time of sale.

Given under my hand and seal this 8th day of March 1993.

Stanley L. Shidoe, Registered Land Surveyor No. 343, State of Indiana

Sheet 3
12. STORAGE TANKS. Oil, gasoline, and other storage tanks shall comply with the laws, rules, and regulations of the Indiana State Fire Marshall, the Environmental Protection Agency, and all other relevant governmental bodies. All such tanks shall be buried or screened from view.

13. SIGNS. This section does not apply to any sign or signs that may be erected on EVERLASTING EASEMENTS by the developer in favor of the committee. The only signs that lot owners may erect to advertise any property on this subdivision are: those required by law, single signs placed by a builder or financial institution to advertise the property for sale or rent, or to prohibit dumping or tramping. No sign shall exceed nine (9) square feet in size.

14. HUNTING AND TRAPPING. Prohibited in this subdivision.

15. SIGHT DISTANCES. At driveways no one may place, construct, plant, maintain, allow, or suffer any improvements, landscaping, or other obstructions to vision (excluding mailboxes) between 5 and 3 feet above the finished grade with the purpose that at least 160 feet of sight distance will be provided in both directions along streets from points in the driveways 25 feet from the front curb. Where the committee determines that this rule for a driveway is impracticable or unreasonable, it may allow an alternative that offers the least hazard and inconvenience to traffic.

16. ANIMALS. No one shall keep any exotic animal or poultry in this subdivision except no more than two household pets such as cats and dogs, but no pet shall be kept, bred, or maintained for sale. In addition to leash, and any debris or animal waste resulting therefrom shall be cleaned up immediately by the owner of said animal.

17. VEHICLE PARKING. No truck larger than three-quarter-ton pickup trucks, disabled vehicles, unoccupied vehicles, campers, motor homes, trailers, recreational vehicles, boats, motorcycles, or subdivision unless it is screened in such a way that it is not visible to the occupants of the street in a reasonable length of time. The committee shall determine what constitutes adequate screening and reasonable length of time.

18. LANDSCAPING. The lot owner shall modify his lot for human use and enjoyment by creating and maintaining good and useful landscaping on his lot in a manner that enhances the beauty and value of the neighborhood.

19. MAINTENANCE OF LOTS AND IMPROVEMENTS. Each lot owner shall maintain his lot and any improvements thereon to prevent them from becoming unsightly by removing all debris, the aesthetic appearance of the subdivision, and by keeping the exterior of all improvements in a good state of repair. Garbage, trash, and other waste shall be kept in an adequate and sanitary condition. All such waste shall be taken out of doors or in such a way as to prevent its becoming unsightly.

20. RUSIANES. No one shall cause or permit any horse or other animal to be in the street or any place where it may create a nuisance or annoyance to the neighborhood.

21. BUSINESS. No mercantile building shall exist, nor shall any manufacturing, wholesale, or retail business, church, or school operate in this subdivision. Day-care and preschool facilities for no more than six (6) children twelve (12) years of age or younger are permitted.

22. DEDICATED BASEMENTS. Each owner of a lot in this subdivision will take his title subject to...
subject to the rights of utility companies, the developer, Hendricks County, the committee, and the other
lot owners in those certain strips or areas of ground designated UTILITY EASEMENT, DRAINAGE
EASEMENT, and ENSRANCE EASEMENTS that are reserved hereinafore. No permanent or other
structures may occupy said easements excepting fences and the facilities for which the easements are
reserved hereinafore. For the purpose of maintaining the easements in good repair (at the
owner’s expense) if necessary to the proper operation and maintenance of the facilities for which the
easements are reserved. No facility shall occupy any easement in a position that will obstruct a property
line or corner.

23. LOT GRADING. Lots shall be graded so as not to restrict the surface water runoff or cause
ponding or stoppage of said runoff over any lot in this subdivision. See Sections numbered 8 and 18
above. It is understood and agreed by each lot purchaser that the drainage swales on his lot have been
satisfactorily installed by the developer, and said lot owner and his contractors and agents shall not allow
those drainage facilities to be altered. Should any drainage facility be changed, the lot owner shall
return those facilities to satisfactory grade without expense or liability to the developer.

24. DRIVEWAYS AND ACCESS RIGHTS. Residential driveways shall be constructed of
portland cement concrete, asphalt, or other hard-surface materials; however, driveways between the
bodies of curbs and street boundaries, as well as sidewalks, shall be constructed only of portland cement
cement. Pavement shall be a minimum of four (4) inches thick excluding subbase materials.
For the purpose of establishing County Road 626 East as a limited access facility, all rights and
 easements of direct ingress and egress to, from, and across said road to and from Lots 2 and 66, between
the limits indicated on the annexed plat, are hereby permanently extinguished; however, the owners of
said lots and their successors in title shall have access rights to and from Harrary Drive. This access
central control shall be binding on all successors in title to said lots.

25. SWIMMING POOLS. Swimming pools, where the water level is either partially or
completely above natural ground level, are prohibited. If ground swimming pools shall be properly
fenced to protect the safety of others. Before erection, such fence shall receive committee approval as
required by Section numbered 7 above.

26. CRAWL SPACE, BASEMENT, AND FOUNDATION DRAINS. No crawl space
basements, areas, crawl space drainage, or foundation perimeter drains shall be constructed to
discharge water onto a street. Open space drains, foundation drains, and basement drains intercepting
and carrying only excess ground water may connect to subsurface drains already in place for that
purpose. Should any such subsurface drain become blocked, partially blocked, or damaged with resulting
damage to another lot owner and/or to the drainage system of any street, the owner causing said
obstruction and/or damage shall be liable for all damages to the injured party or parties, the developer,
Hendricks County, and shall hold the developer, contractors, engineers, surveyors, other lot owners,
and said county harmless from liability therefrom.

27. BASEMENTS are allowed on all lots in this subdivision but pump ejector systems for
wastewater from basement facilities, as well as other pumps for foundation drains, may be
required. Furthermore, lot owners will prevent the emission of ground water from basements by special
designs and construction. For additional regulations regarding basement floor elevations, see Section
numbered 8 above.

28. PROSCRIBED AND OTHER IMPROVEMENTS. No improvements of any kind shall be
permitted in a dedicated street right of way excepting the street pavement, utilities, erosion control,
driveway entrances, sidewalks, landscaping, mailboxes, and those allowed in ENSRANCE EASEMENTS as
defined above.

29. SANITARY SEWER CONNECTION. Private sewage disposal systems are prohibited in
this subdivision. Every lateral connecting between a residence and a public or semi-public sanitary sewer
shall contain a check valve to prevent backflow. The installation and perpetual maintenance of such
laterals and check valves is the responsibility of the lot owners.

30. UTILITIES CONNECTION INSPECTION. All materials and workmanship in the

Given under my hand and seal this 8th day of March 1983:

Stanley M. Shertile, Registered Land Surveyor No. 3481. State of Indiana
installation of connections between residences and utility facilities shall be subject to access and inspection by the utility companies having jurisdiction, or by their duly authorized representatives or successors, who shall have the right to require correction of any defects discovered.

33. SIDEWALKS. Each initial lot owner taking his title from the developer, by acceptance of a deed for his lot, even if not expressed in said deed, is deemed to covenant and agree to build (at the time of construction of the residence) and maintain in good condition a poured cement concrete sidewalk at the side of all streets upon which said lot abuts, excepting that sidewalks are not required to be constructed along County Road 2820 East. Side sidewalks shall be constructed at the time of construction of a residence on said lot, within two (2) years of the date of said deed if no residence is erected on the lot, or prior to the conveyance of title to another party, whichever first occurs. Said sidewalks shall conform with the lines and grades established by the committee. Each said owner shall be responsible for grading and finishing yard slopes, erosion control, and decorative landscaping as required by the committee for sidewalk construction. Said sidewalks shall conform with the development plans for the subdivision on file in the office of the Hendricks County Plan Commission and shall be placed on a 4-inch aggregate subbase.

39. STAKING. ThornRidge, Inc., will set lot corner stakes one time. Wherever possible to be done, corner stakes will consist of 64-inch metal pipes about 38 inches long set 14 inches or more into ground and marked to indicate corner location. Said corner stakes will not only furnish a means for determining lot boundaries, but may aid in the location and orientation of improvements to be constructed on the lot. Lot owners shall have charge and care of stakes marking their respective lots and shall be responsible for their preservation. Since restoration will be at the lot owner's expense, said owners shall become familiar with stake locations and do all things necessary to maintain and protect them. Lot owners may hire ThornRidge, Inc., to replace stakes damaged or destroyed from any cause, or may engage any other registered land surveyor to perform that work. Accidental displacement of stakes and laths during the construction of public and private improvements, and intentional displacement due to vandalism, may cause conflicts between plat locations and staked locations of lot corners and lines. Neither ThornRidge, Inc., nor its engineers or surveyors express or imply any warranty with regard to the correctness of disturbed stakes. Therefore, lot owners and their independent contractors, including their engineers and surveyors, together with utility companies who may install facilities according to stakes in place, shall recognize and act only by the actual notice on the ground to which they are exposed, but also by the constructive notice afforded by the recorded plat of the subdivision. Before starting any excavation, building, or other improvement, the owner shall be responsible for determining all lines and angular measurements between corner stakes found at the site with such dimensions exhibited on said recorded plat. They shall correct at once any discrepancies discovered in the stakes.

48. MUD CONTROL. Prior to, during, or after construction of any improvements on any lot, the owner of said lot or his agent shall construct a driveway or similar traveled or other improved surface on said lot for the delivery of supplies that will disapprove or hinder the tracking of mud or other debris from the lot upon public streets. To further prevent vehicles from distributing mud or other debris on the public streets or any area of ThornRidge, said owner shall have the lot side of any curb adjoining but with bases of straw, appropriate fencing, or erect any other barrier to block vehicles leaving the lot excepting at the driveway or other appropriately-surfaced area. Should mud or other debris be distributed on any public street or other area of ThornRidge, as a result of any activity on any lot, the owner of that lot shall be responsible for the removal of the mud and other material on the date of its placement. The committee may enforce this provision by any mechanism or procedure described in Section numbered 40 below. The owner further holds ThornRidge, Inc., its agents, engineers, surveyors, contractors, and Hendricks County, Indiana, harmless from any liability that might result from violation of or failure to conform with this or any other section of these restrictive covenants.

54. MAILBOXES. All mailboxes shall conform with the standards set forth by the committee and shall be installed by the lot owner's builder simultaneously with the construction of the dwelling.

55. INLET AND CATCH BASIN CASTINGS, CLEANING OF. To facilitate storm water
removal from streets and other areas, the Hendricks County Highway Department may keep castings of mud and catch basins free of oil, debris, and the accumulation of any other foreign matter. However, if any such casting ponds water because said county has not cleaned it, it shall be the duty of the owner or owners whose lots contribute storm water to said inlet or catch basin, to clean said casting and properly dispose of any obstructing debris. Lot owners failing to clean said castings shall be solely liable for damages that may result.

36. FOUNDATIONS AND SLABS ON GRADE. All building foundations shall be placed on suitable soil. At the time of slab placement and excavation for the foundations, careful observation of the subgrade shall be made by a qualified professional. Any soils containing deleterious materials shall either be removed and replaced with engineered fill or the foundations shall be lowered to competent soil.

37. TEMPORARY STRUCTURES. No trailer, shack, motor home, tent, boat, basement, garage, or other outbuilding may be used at any time as a residence, either temporarily or permanently, nor may any structure of a temporary character be used as a residence.

38. EXTERIOR LIGHTING. No exterior lighting of the home or the lot, the effect or use of which becomes a nuisance to adjoining lot owners, shall be permitted.

39. ELECTRONIC SIGNAL TRANSMISSION OR RECEPTION. Any transmission of radio, television, microwave, or any other form of electronic signals from any lot, that interfere with the health or tranquility of any other lot owner, is prohibited. Installation of outside antenna used for the reception of any form of electronic signal shall be located beyond the rear corners of the house and shall not be visible to the public view, and shall be screened from the view of other Thornridge Subdivision lot owners.

40. ENFORCEMENT. If the parties hereinafter, or any of them, or their heirs or assigns, shall violate or attempt to violate any of the covenants herein, it shall be lawful for any person or persons owning any lot in this subdivision to proceed by any proceeding at law or equity the person or persons violating or attempting to violate any such covenant, and either prevent him or them from so doing or to recover damages or other dues for such violation. A violation of any restriction herein will result in revocation or forfeiture of title. If any owner of a lot in this subdivision shall fail to maintain his lot and any improvements situated thereon, or to keep rights of way clear, or to construct and maintain sidewalks in accordance with these restrictive covenants, the committee shall have the right, but not the obligation, by and through its agents and employees or contractors, to enter upon said lot and repair, mow, clean, or perform such other acts as may be reasonably necessary to make said lot, and any improvements situated thereon, conform to the requirements of these restrictions. The committee shall collect its cost thereof in any reasonable manner from the owner. Neither the committee nor any of its agents, engineers, surveyors, employees, or contractors shall be liable for any damage that may result from any maintenance or other work performed hereunder. Any amount so assessed against any lot, together with interest and other charges or costs as hereinafter provided, shall become and remain a lien upon that lot subordinate only to the lien of a first mortgage previously recorded until paid in full, and shall also be a personal obligation of the owner or owners of that lot. Such charge shall bear interest at the rate of 12% per annum until paid in full. If in the opinion of the committee, such charge has remained due and payable for an unreasonable length of time, the committee may institute such proceedings, either at law or in equity, by foreclosure or otherwise, to collect the amount owing, in any court or other competent jurisdiction. The owner or the lot or lots subject to the charge shall, in addition to the amount of the charge due at the time legal action is instituted, be obligated to pay any expenses or costs, including attorney's fees and court costs, incurred by the committee in collecting the same. Every owner of a lot in this subdivision, and any person who may acquire any interest in such lot, whether as owner or otherwise, is hereby notified, and by acquisition of such interest agrees, that any such lien which may exist upon said lot at the time of the acquisition of such interest are valid liens and shall be paid. Every person who shall become an owner of a lot in this subdivision is hereby notified that by the act of acquiring, making such purchase, or acquiring such title, such person shall be conclusively held to have covenanted to pay the committee all assessments that shall be made pursuant to this paragraph. Any right, duty, or power designated herein to the committee shall likewise be extended to any lot owner damaged as a result of a violation of any covenant herein.

SHEET 5

STATE OF INDIANA

No. 6208
43. **TERM.** These covenants will run with the land and shall be binding on all parties, and all persons claiming under them until July 1, 2004, after which they shall be automatically extended for successive ten (10) year periods, unless, at any time, an instrument signed by at least three-fourths (¾) of the then owners of the lots has been recorded agreeing to change said covenants in whole or in part.

44. **SEVERABILITY.** Invalidation of any one of these covenants by judgment or court order shall not affect any of the other provisions, which shall remain in full force and effect.

The undersigned Paul T. Hardin, executing this instrument on behalf of ThornRidge, Inc., represents and certifies that he is a duly elected president of said corporation and has been fully empowered by proper resolution of the Board of Directors of said corporation to execute and deliver this dedication.

In Witness Whereof, the said ThornRidge, Inc., by Paul T. Hardin, President, as owner and proprietor of the above-described real estate, has set its hand and seal this 21 day of July, 1994.
