(b) All buildings will be so located on lot so as to provide a minimum of 6 feet on one side and 9 feet on the other side of said building. No dwelling shall be located nearer than 10 feet to the rear lot line or easement.

(c) For the purposes of this covenant, eaves, steps, and open porches shall not be considered as a part of a building; provided, however, that this shall not be construed to permit any portion of a building on a lot to encroach upon another lot.

C-2 EASEMENTS

Easements for installation and maintenance of utilities and drainage facilities are reserved as shown on the recorded plat and over the rear ten feet of each lot. Within these easements, no structure or other material shall be placed or permitted to remain which may damage or interfere with the installation and maintenance of utilities, or which may change the direction or flow of drainage channels in the easements. The easement area of each lot and all improvements in it, such

as fences, shall be maintained continuously by the owner of the lot, except for those improvements for which a public authority or utility company is responsible.

C-3 NUISANCES

No noxious or offensive activity shall be carried on upon any lot, nor shall anything be done thereon which may be or may become an annoyance to the neighborhood.

Approval of such system as installed shall be obtained from such authority.

C-8 SEWAGE DISPOSAL

No individual sewage disposal system shall be permitted.

C-9 UTILITIES

line connecting them at points 25 feet from the intersection of the street lines, or, in the case of a rounded property corner, from the intersection of the street property lines extended. The same sight line limitations shall apply on any lot within 10 feet from the intersection of a street property line with the edge of a driveway or alley pavement. No tree shall be permitted to remain within such distances of such intersections unless the foliage line is maintained at sufficient height to prevent obstruction of such sight lines. No fencing will be permitted on any lot beyond the front building line except with the approval of The Architectural Control Committee. No fence higher than six feet will be permitted.

C-11 MINIMUM SIZE OF DWELLINGS

C-14 ARCHITECTURAL CONTROL COMMITTEE

The Architectural Control Committee is composed of the duly elected Mayor of the Town of Douglas, The Clearfield Land Development Corp., and The A & R Fertig Construction Co. A majority of the committee may designate a representative to act for it, or any member of the committee may designate a representative to act for the individual member. Neither the members of the committee nor its designated representative shall be entitled to any compensation for services performed pursuant to this covenant. The members of this committee shall remain in control until such time as 90% of the lots in this development have had ownership transferred to other parties or until such time as The Architectural Control Committee voluntarily requests to be relieved of the office (whichever time comes first). Upon relief of present committee, the then record owners of the lots shall have the power through a duly recorded written instrument to change the membership of the committee or to withdraw from the committee or restore to it any of its powers and duties.
