* DECLARATION OF PROTECTIVE--
* COVENANTS FOR NORTH CHEYENNE

to

* Recorded July 31, 1956
* at 1:21 P.M.

601-77/82 The Public

Recites:

KNOW ALL MEN BY THESE PRESENTS: That the undersigned, being the present owners of all lots and blocks of North Cheyenne, Laramie County, Wyoming, the same being a Sub-division of a portion of Section 13, Township 14 North, Range 67 West of the 6th P.M., Laramie County, Wyoming, as said subdivision appears on the official plat thereof which is on file and of record in the office of the Clerk of said County, do hereby covenant and agree that all of the above described property is held subject to the restrictions, conditions, and covenants contained in this Declaration of Protective Covenants, and said owners do covenant that subsequent conveyances of said lots and blocks shall be subject to the following covenants and restrictions.

Restrictions hereby a restriction,
limitation or declaration based
on fact, date, right, use, location,
found either in deed or other
deedly record in the event such
restriction violate 42 USC 1404(c)

1. Lots 1, 2, and 3, Block 8, North Cheyenne, may be used for either business or residential purposes at the option of the owners. If used for business purposes, the use shall be limited to the operation of retail stores. All other lots in said North Cheyenne shall be residential lots, and all buildings erected thereon shall be either one-family dwellings or two-family duplex units. Residential lots shall not have garages constructed thereon for more than two cars.

2. No building shall be erected, placed, or altered on any lot until the construction plans and specifications and a plan showing the location of the structure have been approved by the architectural control committee as to quality of workmanship and materials, harmony of external design with existing structures, and as to location with respect to topography and finish grade elevation.

3. No dwelling for one family shall be permitted unless it shall have not less than 860 square feet, exclusive of porches and garages, on the ground floor of the main structure, and no two-family duplex units shall be permitted unless each unit shall have not less than 600 square feet, exclusive of porches and garages.

Continued
601-77/82

4. No building shall be located on any residential lot nearer than 25 feet from the front line, or nearer than 20 feet from any side street line. Nor shall any building be located on a residential lot nearer than 5 feet from an interior lot line, except that no side yard shall be required for a garage or other permitted accessory building located 60 feet or more from the minimum building setback line. No building shall be located on any residential lot nearer than 15 feet from the rear lot line. For the purposes of this covenant, eaves, steps, and open porches shall not be considered as a part of a building, provided, however, that this shall not be construed to permit any portion of a building, on a lot, to encroach upon another lot.
5. No dwelling shall be erected or placed on any lot having a width of less than forty-five feet at the minimum building setback line nor shall any dwelling be erected or placed on any lot having an area of less than 4950 square feet.
6. No noxious or offensive activity shall be carried on upon any lot, nor shall anything be done thereon which may or may become an annoyance or nuisance to the neighborhood.
7. No structure of a temporary character, trailer, basement, tent, shack, garage, barn, or other outbuilding shall be used on any lot at any time as a residence either temporarily or permanently.
8. The architectural control committee hereinbefore referred to is composed of the following: Wilbur L. Mead, whose term shall expire August 1, 1957; Walter R. Humphrey, whose term shall expire August 1, 1958; and J. A. Combs, whose term shall expire August 1, 1959.
9. As the term of each member expires or is terminated for any reason, the remaining members shall designate a successor. No member shall be eligible to succeed himself who has served for a full three years. The committee shall elect a chairman and secretary and regular minutes shall be kept covering the activities of the committee. A majority of the committee may designate one of the committee to act as a representative for the committee. Neither the members of the committee, nor its designated representative, shall be entitled to any compensation for services performed pursuant to this covenant. At any time, the then record owners of a majority of the lots shall have the power through a duly recorded written instrument to change the membership of the committee or to withdraw from the committee or restore to it any of its powers and duties.

The committees' approval or disapproval shall be in writing; and in the event of disapproval, the reasons shall be stated. In the event the committee, or its designated representative, fails to approve or disapprove within 30 days after plans and specifications have been submitted to it, or in any event, if no suit to enjoin the construction has been commenced prior to the completion thereof, approval will not be required and the related covenants shall be deemed to have been fully complied with.
10. No sign of any kind shall be displayed to the public view on any lot except one professional sign of not more than one square foot, one sign of not more than five square feet advertising the property for sale or rent, or signs used by a builder to advertise the property during the construction and sales period.

11. No oil drilling, oil development operations, oil refining, quarrying or mining operations of any kind shall be permitted upon or in any lot, nor shall oil wells, tanks, tunnels, mineral excavations or shafts be permitted upon or in any lot. No derrick or other structure designed for use in boring for oil or natural gas shall be erected, maintained or permitted upon any lot.

12. No animals, livestock, or poultry of any kind shall be raised, bred, or kept on any lot, except that dogs, cats or other household pets may be kept provided that they are not kept, bred, or maintained for any commercial purpose.

13. No lot shall be used or maintained as a dumping ground for rubbish. All incinerators or other equipment for the storage or disposal of such material shall be kept in a clean and sanitary condition.

14. No individual water-supply system shall be permitted on any lot unless such system is located, constructed and equipped in accordance with the requirements, standards and recommendations of the State of Wyoming. Approval of such system as installed shall be obtained from such authority.

15. These covenants are to run with the land and shall be binding on all parties and all persons claiming under them for a period of twenty-five years from the date these covenants are recorded, after which time said covenants shall be automatically extended for successive periods of 10 years unless an instrument signed by a majority of the then owners of the lots has been recorded, agreeing to change said covenants in whole or in part.

16. Enforcement shall be by proceedings at law or in equity against any person or persons violating or attempting to violate any covenant either to restrain violation or to recover damages.

17. Notwithstanding anything herein to the contrary, these covenants shall not be applicable to any specific use of land or structure erected thereon existing on the filing of these covenants.

18. Invalidation of any one of these covenants by judgment or court order shall in no wise affect any of the other provisions which shall remain in full force and effect.
