3. No exterior remodeling, alteration, change of color scheme or enlarging of any existing building or improvement shall be undertaken or permitted by any property owner, nor shall any property owner change the character of use of any building unless a plan or plans showing the nature, character and extent of such remodeling, alteration, enlarging, change of character of use and/or removal of trees during remodeling, if any, shall have first been approved, in writing, by said Committee.

4. No more than one building shall be erected on each lot except with the consent and approval of the Committee herein provided for.

5. No building shall be located less than twenty (20) feet from any exterior lot line.

6. On-street parking will not be permitted. Each lot owner shall provide for a parking area on his property, of sufficient size to permit parking therein of all automotive equipment owned and operated by the occupants of said property and/or his customers, employees and/or visitors. The area designated for parking must be black-topped before construction of the building is completed and the building occupied for use. If trees must be removed to allow sufficient parking space, the approval of the Committee must first be secured.

7. Each lot owner shall submit to the Committee a plot plan showing: Location of the building on the lot; parking area (black-topped); ingress and egress points; and, area to be left for planting and/or landscaping.

8. The minimum area required for planting and/or landscaping shall be an area equal to the width of the lot less 40 feet, and 20 feet in depth. In the case of service stations, however, such minimum area for planting and/or landscaping shall not be required; but
in lieu thereof, such service stations shall be required to construct and maintain attractive and suitable planter boxes of small-type shrubbery and/or flowers, which boxes shall have a minimum width of two (2) feet and shall extend along and across the front portion of the service station building exclusive of doorways. Also, in addition to such planter boxes, if there is land reasonably available for planting and/or landscaping with grass, trees, and/or shrubbery, such planting and landscaping shall be required in the case of service stations.

9. These French Drains will take the place of storm sewers.

15. All service stations, garages and/or automobile agencies must provide, independent of the sewage line or system, underground, leak-proof, storage tanks for the collection of waste oil and/or grease. Any suitable mobile equipment that accomplishes the same purpose will be acceptable.

sewage lines.

16. All building owners must install either inside or outside
the building, a manufactured, super gas-burning or electric incinerator
that is equal or comparable to a Martin or Caloric. Each incinerator
must be large enough to handle the daily refuse from the business
conducted in or about said buildings, including tree branches, leaves, papers,
grass cuttings, magazines, or any other type of trash or waste from said
business or lot. The refuse that is not capable of being burned in the
incinerator, and the ashes from the incinerator must be contained and
disposed of from time to time and at the expense of each building owner so

feet, for the purpose of advertising the sale thereof.
One or more signs for the purpose of advertising the conduct
of a business shall be permitted by the Committee, provided
that the Committee has first approved the location of the
sign or signs.

The purpose of this restriction is to enable the Committee to avoid obstruc-
ting the view of any sign(s) of others.

20. No private water wells shall be drilled within the area unless
the required water shall be unavailable from commercial sources or unless
the consent of the Committee has been first obtained.

21. Each property owner shall keep and maintain his or its premises
in a good and sightly condition at all times, and if said premises become
unsightly, and if upon thirty (30) days notice said owner does not correct
such unsightly and objectionable condition, then in that event the Committee
hereinafter provided for may enter upon such premises and cause such un-
sightly condition to be cleaned or otherwise remedied, and all charges for
such services shall immediately and forthwith become due and payable by
the owner of such premises, and such charges shall become and constitute a
lien upon such premises, which said lien may be evidenced by the filing of
liens statements in the office of the County Clerk of Natrona County, Wyoming,
and may be foreclosed upon the manner provided for by law for the enforce-
ment of mechanics or materialmen's liens.

22. The within restrictions shall be and constitute covenants run-
ing with the land, and shall be binding upon all of the owners of land
within the area, their heirs, successors and assigns, until July 7, 1990,
at which time these restrictions shall automatically be extended for success-
itive ten (10) year periods, unless terminated by a vote of the owners of a
majority of the land in the area, calculated on a square foot basis.

23. It is understood that the within restrictions are part of a
general building scheme and are for the benefit of all landowners in the
area. If any such owner shall violate or attempt to violate, any of the
within restrictions, it shall be lawful for any of the owners of land in
the area to prosecute an appropriate proceeding at law against the person
or persons violating or attempting to violate any of the within restrictions
to prevent such violation or to remedy the same by mandatory injunction or
to recover damages for such violation.

24. The within restrictions and the operation thereof shall be
supervised and enforced by a Committee of three (3) persons, one of whom
shall be H. O. English or Dorothy F. English or their nominee, as long as
either of them or their nominee own land in the area. The other members of
the Committee, who shall be owners of land within the area or duly designated
representatives of owners of land in the area, shall be elected by a vote
of the landowners in the area owning a majority of the land therein, cal-
culated on a square foot basis. Committee members shall be elected on
July 1st of each year, commencing July 1, 1965, and shall serve a term of
one (1) year from the date of their election or until their successors are
elected and qualified. Vacancies on the Committee shall be filled by
appointment made by said Committee. The Committee is authorized and
empowered to review, approve, or disapprove any building or other plan
required to be submitted to it in accordance with the provisions of these
Restrictions. In reviewing any such plans, the Committee shall be mindful
to insure that any building, and any exterior remodeling or extension of
any existing building shall be in harmonious conformity in exterior design
and location with existing structures. In the event the Committee fails,
over a period of thirty (30) days, to approve or disapprove any plan sub-
mitted to it as required by the provisions of these Restrictions, then and
in that event the approval of the Committee to any such plan shall be con-
clusively presumed and the within Restrictions shall be deemed to have been
fully complied with. Decisions of the Committee shall be reached by a
majority vote of its members.

The Committee herein provided for shall not be entitled to any
compensation for services rendered hereunder, however, the Committee may
charge reasonable fees in connection with appraising plans, inspecting
buildings and/or grounds.

25. The Committee provided for above shall have power to change,
alter or amend any of the within Restrictions, and upon effecting any such
change, alteration or amendment, the Committee shall promptly give notice
thereof to all of the property owners in the area. If the owners of an
aggregate of fifty-one (51%) percent of the land in the area, calculated
on a square foot basis, record and submit to the Committee their objections
in writing to any such change, alteration or amendment within thirty (30)
days of receipt of notice thereof, such change, alteration or amendment
shall be deemed to be null and void and of no force and effect.

26. Invalidation of any one of the provisions set forth above by
judgment or Court Order shall not in any manner affect or impair the other
provisions hereof.
