(a) Annual assessments or charges;

(b) Special assessments for capital improvements or maintenance thereof;

(c) Special assessments in connection with an Owner's failure to perform the required exterior maintenance or improvements to his property or in connection with an Owner's failure to comply with this Declaration, all as hereinafter described with more particularity.

the recreation, health, safety and welfare of owners and residents in the Properties and for the improvement and maintenance of the Common Areas.

Section 4.3 Special Assessments for Capital Improvements. In addition to the annual assessments authorized above, the Association may levy in any assessment year a special assessment applicable to that year only for the purpose of covering in whole or in part the cost of any construction, reconstruction, repair or replacement of a capital improvement on the Common Area including fixtures and personal property related thereto, provided that any such assessment shall have the assent of a majority of the votes of each class of members who are voting in person or by proxy at a meeting duly called for this purpose.

Section 4.4 Special Assessments for Maintenance of Property or Enforcement of the Declaration. In the event that the Owner of any single family lot shall fail to maintain the premises and the improvements situated thereon in a manner satisfactory to the Architectural Review Committee, according to this Declaration and Design Review Standards found in Article V, Section 5.2, the Board of Directors of the Association, shall have the right through its agents and employees to enter upon said parcel and to repair, maintain and restore the exterior of the buildings and any other improvements erected thereon, including landscaping, in the manner contemplated by the above provisions. This provision also applies to the completion of construction or reconstruction of any dwelling unit not completed in accordance with plans and specifications approved by the Architectural Review Committee. The cost of such exterior maintenance, construction or reconstruction shall thereupon be added to and become a part of the annual assessment to which said parcel is subject as aforesaid.

The annual assessments provided herein shall commence on such date as is specified in the By-Laws of the Association or in any Supplementary Declarations. The assessment shall be on a full calendar year basis with the first annual assessment being adjusted according to the number of months remaining in the calendar year. At least thirty (30) days in advance of each calendar year, the Board of Directors of the Association shall fix the amount of the annual assessment against each single family lot. Written notice of the annual assessment shall be sent to each owner subject thereto. The Board of Directors shall fix the annual and special assessments as well as establish the method of installment payments and the due dates for said assessments. In addition to the rights, it shall be the personal obligation of the then Owner to pay such assessment and such personal obligation shall continue even though the Owner's interest in the property shall be transferred.

The Association may bring legal action against the Owner personally obligated to pay the delinquent assessment or to foreclose the lien against the property and there shall be added to the amount of such assessment all costs incurred by the Association in foreclosing the lien or in collecting the amount owing, including any reasonable attorney's fees.

Such sale or transfer shall not release such property from liability for any assessment thereafter becoming due nor from the lien of any subsequent assessment.

ARTICLE V

ARCHITECTURAL REVIEW COMMITTEE

Section 5.1 The Committee. There is hereby established an Architectural Review Committee consisting of three (3) members all of whom shall be appointed by the Declarant. The aforesaid members of the Architectural Review Committee shall serve at the pleasure of the Declarant. The vote of a majority of the members shall constitute the action of the Architectural Review Committee.

No improvements shall be constructed, erected, placed, altered, maintained or permitted on any of the Property nor shall any construction or excavation whatsoever be commenced or materials, equipment, or construction vehicles be placed on any lot until plans and specifications with respect thereto in manner and form satisfactory to the Architectural Review Committee showing the proposed improvements, site location of such improvements, complete building plans and material speci-
fications and all exterior elevations, materials and colors, landscaping, grading, easements and utilities and such other information as may be requested by said Committee have been submitted to and approved in writing by the Architectural Review Committee. The Architectural Review Committee shall have the right to charge persons submitting such plans a reasonable fee for reviewing each application.

Approval shall be based among other things on conformity and harmony of exterior design, colors and materials with neighboring structures, relation of the proposed improvements to the natural topography, grade and finish elevation of the structure to that of the neighboring structures and natural features of the property and conformity of the plans and specifications to the purpose and general plan and intent of these restrictions. The Architectural Review Committee shall have the right to require an improved landscaping plan. The Architectural Review Committee shall not arbitrarily or unreasonably withhold its approval of such plans and specifications.

If the Architectural Review Committee fails either to approve or disapprove such plans and specifications (including resubmission of disapproved plans and specifications which have been revised) within twenty (20) days after the same have been submitted to it (provided that all required information has been submitted) it shall be conclusively presumed that said plans and specifications have been approved, subject, however, to the restrictions contained in Article V hereof. The Architectural Review Committee shall notify the Owner in writing within ten (10) days after receipt of plans and specifications if additional information is needed and the aforesaid twenty (20) day period shall commence on the date of said notification, and if no notification is given, the twenty (20) day period shall commence on the eleventh (11th) day after receipt of plans and specifications.

Neither the Architectural Review Committee nor the Declarant shall be liable in damages to anyone submitting plans to them for approval or to any Owner by reason of a mistake in judgment, negligence or nonfeasance arising out of or in connection with the approval or disapproval or failure to approve such plans and specifications. Every Owner or other person who submits plans to the Architectural Review Committee for approval agrees by submission of such plans and specifications that he will not bring any action or suit against the Architectural Review Committee or Declarant to recover any such damages. Approval by the Architectural Review Committee or the Declarant shall not be deemed to constitute that the plans comply with the requirements of any local building codes and it shall be the responsibility of the Owner or other persons submitting the plans to the Architectural Review Committee to comply therewith.

Until December 31, 1990, unless voluntarily relinquished at an earlier date, the Declarant in its own name and on behalf
of the Architectural Review Committee shall have the right to enforce these covenants, conditions and restrictions. Additionally, until the date aforesaid, at the request of the Declarant or at the request of the Architectural Review Committee at any time of the duration of these covenants the Association shall have the right to enforce these covenants pursuant to Article VI hereinafter set forth. Declarant reserves the right to transfer at any time its duties or responsibilities of the Architectural Review Committee pursuant to these covenants to the Association whereupon said Association shall have the right and the duty to enforce these covenants and to restrain any violation hereof.

Section 5.2 Variances. Where circumstances such as topography, hardship, location of property lines, location of trees, brush, streams or other matter require, the Architectural Review Committee may by an affirmative vote of the majority of the members of said Committee allow a reasonable variance as to any of the covenants and restrictions contained in this instrument on such terms and conditions as it shall require. The Architectural Review Committee shall develop a design review standard which shall govern their actions in respect to granting any variances. The design review standard will be maintained in a documentary form and will detail every variance granted and the reasons for granting same.

Section 5.3 Books and Records. The Architectural Review Committee shall keep and safeguard a complete written record of all applications approved and submitted to it and all actions taken by it under the provisions of this Declaration. Said records shall be maintained for a minimum of five (5) years after approval or disapproval.
